PRIOR ART STATEMENT

Applicant submits this Prior Art Statement to bring to the attention of the Patent and Trademark Office the following references copies of which are attached hereto as the indicated exhibits:

- A. U.S. Patent No. 3,135,815 to F. Spiegel;
- B. Patent No. 1,119,152 of the Federal Republic of Germany; and
- C. A translation into English of the Exhibit B reference.

Both of references A and B relate to guided missile simulators apparently intended for use in military applications. Neither relates to or suggests apparatus useful for the playing of games in the home on standard, broadcast television receivers having the features called for in the claims of this application and those claims, therefore, are allowable thereover.

In addition to this Prior Art Statement, applicant is also submitting herewith a document entitled "Letter of Information" setting forth, among other things, certain facts

relating to civil actions concerning U.S. Patent 3,728,480, the patent sought to be reissued by this application, and patents related thereto. Because of the particular importance attached by the defendants in some of those actions to "computer games" such as are referred to in Exhibits 9, 10, 14 and 22 to that Letter, particular attention is drawn to those Exhibits. Each of those Exhibits relates to a game played on a digital computer in conjunction with point-to-point or x-y plotting cathode ray tube displays rather than standard, broadcast television receivers of the type called for by the claims in this application.

Applicant's undersigned attorney spoke with Examiner V. Hum by telephone on September 21, 1977 concerning the applicability of the three month period provided for in 37 C.F.R. § 1.97 for the filing of prior art statements when the application is one for a reissue patent in view of the requirement of 37 C.F.R. § 1.176 that a reissue application not be examined sooner than two months after announcement of its filing in the Official Gazette. In this case, the announcement of its filing was published in the Official Gazette on August 23, 1977, so that the two month period of § 1.176 expires after the three month period of § 1.97. Applicant's attorneys were unable to submit this Prior Art Statement prior to September 27, 1977 due to unexpected difficulties in obtaining copies of some of the exhibits to the Letter of Information referred to therein and delays in the mechanics of assembling those exhibits.

Respectfully submitted,
