(15) When devices for achieving access to telecommunications systems have been available directly to consumers on a competitive basis, consumers have enjoyed expanded choices, lower prices, and increased innovation.

(16) While recognizing the legitimate interest of multichannel video programming distributors to ensure the delivery of services to authorized recipients only, addressable converter boxes should be available to consumers on a competitive basis. The private sector has the expertise to develop and adopt standards that will ensure competition of these devices. When the private sector fails to develop and adopt such standards, the Federal government may play a role by taking transitional actions to ensure competition.

"(a) AVAILABILITY.—The Commission shall, after notice and opportunity for public comment, adopt regulations to ensure the competitive availability of addressable converter boxes to subscribers of services of multichannel video programming distributors from manufacturers, retailers, and other vendors that are not telecommunications carriers and not affiliated with providers of telecommunications service. Such regulations shall take into account—

"(1) the needs of owners and distributors of video programming and information services to ensure system and signal security and prevent theft of the programming or service; and

"(2) the need to ensure the further deployment of new technology relating to converter boxes.

"(b) TERMINATION OF REGULATIONS.—The regulations adopted pursuant to this section shall provide for the termination of such regulations when the Commission determines that there exists a competitive market for multichannel video programming services and addressable converter boxes among manufacturers, retailers, and other vendors that are not telecommunications carriers and not affiliated with providers of telecommunications service."

In making such determination, the Attorney General shall review the whole record.

"(B) APPROVAL.—The Attorney General shall approve the authorization requested in any application submitted under paragraph (1) only to the extent that the Attorney General finds that there is no substantial possibility that such company or its subsidiaries or its affiliates could use monopoly power in a telephone exchange or exchange access service market to impede competition in the interLATA telecommunications service market such company or its subsidiary or affiliate seeks to enter. SEC. 107. COORDINATION FOR TELECOMMUNICATIONS NETWORK-LEVEL INTEROPERABILITY.

(a) IN GENERAL.—To promote nondiscriminatory access to telecommunications networks by the broadest number of users and vendors of communications products and services through—

(1) coordinated telecommunications network planning and design by common carriers and other providers of telecommunications services;

(2) interconnection of telecommunications networks, and of devices with such networks, to ensure the ability of users and information providers to seamlessly and transparently transmit and receive information between and across telecommunications networks,

the Commission may participate, in a manner consistent with its authority and practice prior to the date of enactment of this Act, in the development by appropriate voluntary industry standards-setting organizations to promote telecommunications network-level interoperability.

(b) DEFINITION OF TELECOMMUNICATIONS NETWORK-LEVEL INTEROPERABILITY.—As used in this section, the term "telecommunications network-level interoperability" means the ability of 2 or more telecommunications networks to communicate and interact in concert with each other to exchange information without degradation.

(c) COMMISSION'S AUTHORITY NOT LIMITED.—Nothing in this section shall be construed as limiting the existing authority of the Commission.

On page 68, line 13, strike the closing quotation marks and the second period.

On page 68, between lines 13 and 14, insert the following:

"(G) ACQUISITIONS; JOINT VENTURES; PARTNERSHIPS; JOINT USE OF FACILITIES.—

"(A) LOCAL EXCHANGE CARRIERS.—No local exchange carrier or any affiliate of such carrier owned by, operated by, controlled by, or under common control with such carrier may purchase or otherwise acquire more than a 10 percent financial interest, or any management interest, in any cable operator providing cable service within the local exchange carrier's telephone service area.

"(B) CABLE OPERATORS.—No cable operator or affiliate of a cable operator that is owned by, operated by, controlled by, or under common ownership with such cable operator may purchase or otherwise acquire, directly or indirectly, more than a 10 percent financial interest, or any management interest, in any local exchange carrier providing telephone exchange service within such cable operator's franchise area.

"(C) JOINT VENTURE.—A local exchange carrier and a cable operator whose telephone service area and cable franchise area, respectively, are in the same market may not enter into any joint venture or partnership to provide video programming directly to subscribers or to provide telecommunications services within such market.

"(D) EXCEPTION.—Notwithstanding subparagraphs (A), (B), and (C) of this paragraph, a local exchange carrier (with respect to a cable system located in its telephone service area) and a cable operator (with respect to the facilities of a local exchange carrier used to provide telephone exchange service in its cable franchise area) may obtain a controlling interest in, management interest in, or enter into a joint venture or partnership with such system or facilities to the extent that such system or facilities only serve incorporated or unincorporated—

"(i) places or territories that have fewer than 50,000 inhabitants; and

"(ii) are outside an urbanized area, as defined by the Bureau of the Census.

"(E) WAIVER.—The Commission may waive the restrictions of subparagraph (A), (B), or (C) only if the Commission determines that, because of the nature of the market served by the affected cable system or facilities used to provide telephone exchange service—

"(i) the incumbent cable operator or local exchange carrier would be subjected to undue economic distress by the enforcement of such provisions,

"(ii) the system or facilities would not be economically viable if such provisions were enforced, or

"(iii) the anticompetitive effects of the proposed transaction are clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served.

"(F) JOINT USE.—Notwithstanding subparagraphs (A), (B), and (C), a telecommunications carrier may obtain within such carrier's telephone service area, with the concurrence of the cable operator on the rates, terms, and conditions, the use of that portion of the transmission facilities of such a cable system extending from the last multiterminal to the premises of the end user in excess of the capacity that the cable operator uses to provide its own cable services. A cable operator that provides access to such portion of its transmission facilities to one telecommunications carrier shall provide nondiscriminatory access to such portion of its transmission facilities to any other telecommunications carrier requesting such access.

"(G) SAVINGS CLAUSE.—Nothing in this paragraph affects the authority of a local franchising authority (in the case of the purchase or acquisition of a cable operator, or a joint venture to provide cable service) or a State Commission (in the case of the acquisition of a local exchange carrier, or a joint venture to provide telephone exchange service) to approve or disapprove a purchase, acquisition, or joint venture."

On page 70, line 7, strike "services," and insert "services provided by cable systems other than small cable systems, determined on a per-channel basis as of June 1, 1995, and redetermined, and adjusted if necessary, every 2 years thereafter."

On page 72, before line 12, insert the following:

On page 83, line 4, strike "area," and insert "area or until 36 months have passed since the enactment of the Telecommunications Act of 1995, whichever is earlier."
