TO: AUTM Members
FROM: Marvin C. Guthrie, AUTM President
SUBJECT: AUTM Licensing Survey
DATE: February 12, 1998

You will find enclosed your copy of the AUTM Licensing Survey, Fiscal Year 1996, Survey Summary. You are also receiving a copy of a national press release that AUTM will be sending to targeted news organizations over the next week.

We hope you enjoy the report and look forward to seeing you soon at AUTM's annual meeting in San Antonio.

AUTM Licensing Survey Reports

AUTM Licensing Survey: FY 1996 Survey Summary

The *FY 1996 Survey Summary* provides an overview of the larger, more detailed *Full Report*. It provides FY 1996 results for all respondents by category: U.S. Universities, U.S. Hospitals and Research Institutes, Canadian Institutions, and Patent Management Firms.

It also highlights noteworthy developments in FY 1996 and brings together aggregate information on all institutions that have ever responded to the AUTM Licensing Survey, as well as the subset of these institutions that provided information for FY 1991 - FY 1996, the six years for which AUTM survey data have been collected.

New charts are included in the *FY 1996 Survey Summary* that summarize the *aggregate responses* to new questions surveyed in FY 1996. These questions include data on the exclusivity of licenses, life and physical science activity, cashed-in equity, and program start year.

AUTM Licensing Survey: FY 1996 Full Report

The *Full Report* (an approximate 300 page report) is the most comprehensive report available on licensing activities. It includes the information contained in the *FY 1996 Survey Summary* in its entirety, as well as institution-by-institution responses to survey questions. The *Full Report* presents the data by U.S. Universities, U.S. Hospitals and Research Institutes, Canadian Institutions, and Patent Management Firms. Also included are subtotals for the institutions, summarized by those four categories of organizations.

The *Full Report* has been enhanced in FY 1996 to include new tables that contain *individual institutional responses* to the new questions surveyed in FY 1996. In addition, the tables have been expanded to include the start year for each responding institution's licensing office.

The *Full Report* is a useful tool when comparing institutional data and analyzing the AUTM Licensing Survey results.

ORDER FORM

TO: Joanne Perkins, AUTM Headquarters
49 East Avenue, Norwalk, CT 06851-3919
Ph: 203-845-9015, Fax: 203-847-1304

New!! 6.d) How many of the **ACTIVE LICENSES/OPTIONS** were in **LIFE SCIENCE** and how many were in **PHYSICAL SCIENCE**?

	<i>Total # of Active Licenses/Options (Same as 6.a)</i>	<i>Total # of Active Licenses/Options: Life Science</i>	<i>Total # of Active Licenses/Options: Physical Science</i>
<i>Cumulative for All Years</i>			

7. RESEARCH FUNDING RELATED TO LICENSING:

How much **RESEARCH FUNDING** was committed to your institution that was related to **LICENSE** or **OPTION AGREEMENTS** executed in Fiscal Year 1996?

<i>Year</i>	<i># of Licenses/Options Executed (Same as 6.a)</i>	<i>Research Funding Related to FY 1996 Licenses/Options</i>
<i>Fiscal Year 1996</i>		

8. LICENSE INCOME: (exclude software end-user licenses under \$1,000)

8.a) What was the amount of **LICENSE INCOME RECEIVED** at your institution and the total number of **LICENSES/OPTIONS** yielding **LICENSE INCOME** in Fiscal Year 1996? How much of the **LICENSE INCOME** was **PAID TO OTHER INSTITUTIONS**? How much of the **LICENSE INCOME** was **RECEIVED FROM OTHER INSTITUTIONS**?

<i>Year</i>	<i>License Income Received</i>	<i>Total # of Licenses/Options Yielding License Income</i>	<i>License Income Paid to Other Institutions</i>	<i>License Income Received From Other Institutions</i>
<i>Fiscal Year 1996</i>				

New!! 8.b) How much of the **LICENSE INCOME RECEIVED** was in **LIFE SCIENCE**? How much of the **LICENSE INCOME RECEIVED** was in **PHYSICAL SCIENCE**?

<i>Year</i>	<i>License Income Received (Same as 8.a)</i>	<i>License Income Received: Life Science</i>	<i>License Income Received: Physical Science</i>
<i>Fiscal Year 1996</i>			

12. START-UP COMPANIES:

FY 1996 data for **START-UP COMPANIES:**

- 12.a) How many **START-UP COMPANIES** were formed during Fiscal Year 1996 that were dependent upon the licensing of your institution's technology for initiation? _____.
- New!!* 12.b) How many of these **START-UP COMPANIES** formed during Fiscal Year 1996 are **OPERATIONAL** today? _____.
- New!!* 12.c) Does your institution have a policy or guidelines in place governing the licensing of technology to **INVESTIGATOR-/INSTITUTION-INITIATED START-UP COMPANIES**? Yes No
- New!!* 12.d) If the answer to 12.c is "Yes," how long have the policy or guidelines been in place? _____.

Historical Data on **START-UP COMPANIES:** (The following questions apply only to those institutions that reported **START-UP COMPANIES** under the AUTM Licensing Survey for Fiscal Years 1993, 1994, or 1995. See enclosed **START-UP COMPANY INFORMATION SHEET**.)

- New!!* 12.e) Using the **START-UP COMPANY INFORMATION SHEET**, (which was provided as an attachment to the cover letter to this survey and shows the previously reported data for **START-UP COMPANIES** for your institution), for the calculated sum of **START-UP COMPANIES** shown for your institution for all years, how many **START-UP COMPANIES** are **OPERATIONAL** today? _____.
- New!!* 12.f) How many of your **START-UP COMPANIES** that are **OPERATIONAL** today (reported in 12.e) had **LIFE SCIENCE** as their main business focus? How many had **PHYSICAL SCIENCE** as their main business focus?

<i>Total Start-Ups Operational Today (Same as 12.e)</i>	<i>No. of Start-Ups Operational Today: Life Science</i>	<i>No. of Start-Ups Operational Today: Physical Science</i>

- New!!* 12.g) For the calculated sum of **START-UP COMPANIES** shown for your institution on the **START-UP COMPANY INFORMATION SHEET**, in how many **START-UP COMPANIES** did your institution take **EQUITY** as part of a **LICENSE**? _____.

Return Survey to: Diane C. Hoffman, Inc., Attn: AUTM Licensing Survey, 23 Perrine Path, Cranbury, NJ 08512, Phone: (609) 799-6187, Fax: (609) 799-5247, dchoffinc@aol.com

in Fiscal Year 1996. To respond to this question, you should review the License/Option Agreements reported as executed in Question 6.a of the survey, and report the amount of Research Funding (even if multi-year) committed to the institution that was related to these Licenses/Options.

Question 8: The first portion of this question, 8.a, requests the *same information* asked in previous surveys with the exception that what once was referred to as "Royalties Received" is now being referred to as "License Income." The definition for License Income is the same as that previously used for Royalties Received. Sections 8.b and 8.c request additional detailed data. In 8.b the sum of the License Income received assigned to Life Science and Physical Science will equal License Income received for Fiscal Year 1996. In 8.c the sum of License Income apportioned to Running Royalties, Cashed-In Equity, and All Other Types will equal License Income received for Fiscal Year 1996.

Question 9: This is a new question that will provide more complete information on Equity that is related to licensing activity. It requests information for Cashed-In Equity and Value of All Equity Holdings. To compute the value of your equity holdings, refer to the definition for Value of All Equity Holdings.

Question 10: This question requests the *same information* asked in previous surveys. Total costs/reimbursements for external legal fees and reimbursements, as defined below, have been routinely reported under the survey. The definitions for Legal Fees Expenditures and Reimbursements have been clarified to state that these amounts include fees related to prosecution, maintenance, litigation, and interference costs.

Question 11: This is the *same question* asked in previous surveys. The data requested are self-explanatory.

Question 12: This question asks information for FY 1996 and requests historical data about previously submitted information on Start-Up Companies for your institution. If you did not respond to the survey in prior years, or if you did respond to the survey but did not provide data for Start-Up Companies, you will not need to answer the historical questions in the second part of this question. The information requested for 1996 is self-explanatory. The historical data will require the use of the Start-Up Company Information Sheet provided to those institutions that had reported data for Start-Up Companies in earlier surveys. If you do not have this Start-Up Company Information Sheet, but feel that it applies to your institution, you should contact Diane Hoffman at (609) 799-6187.

DEFINITIONS: (listed in alphabetical order)

0.5 PROFESSIONAL FTE: 0.5 PROFESSIONAL FTE means a professional position whose duties included support of TECHNOLOGY TRANSFER ACTIVITIES at least 50% of the time. This person may or may not have been located in a formally established TECHNOLOGY TRANSFER OFFICE at that time. (See Question 3.)

ACTIVE LICENSES/OPTIONS: The cumulative number of LICENSES/OPTIONS over all years that had not terminated by the end of the survey's fiscal year requested. (See Questions 6.a and 6.d.)

CASHED-IN EQUITY: This includes the amount received from cashing in equity holdings, resulting in a cash transfer to the institution. Excluded from this amount is any type of analysis or process whereby a value for the equity holdings is determined but a cash transaction does not take place through the sale of

includes the amount of LICENSE INCOME received from other institutions by your institution under inter-institutional agreements. (See Question 8.a.)

LICENSES/OPTIONS: LICENSES/OPTIONS may be counted by counting the number of LICENSE or OPTION AGREEMENTS that were executed in the year indicated for all technologies. Each agreement, exclusive or nonexclusive, should be counted separately. Licenses to software end-users of \$1,000 or more may be counted per license, or as 1 license or 1/each for each major software product (at manager's discretion) if the total number of end-user licenses would unreasonably skew the institution's data. (See Questions 6.a-6.d, 7, and 8.a.)

LICENSE/OPTION AGREEMENTS: A LICENSE AGREEMENT formalizes the transfer of technology between two parties, the licensor and the licensee, where the owner of the technology permits the other party to share the rights to use the technology. An OPTION AGREEMENT grants the potential licensee a time period during which it may evaluate the technology and negotiate the terms of a LICENSE AGREEMENT. An OPTION AGREEMENT is *not* constituted by an Option clause in a research agreement that grants rights to future inventions, until an actual invention has occurred which is subject to that Option. (See Questions 6.a-6.d, 7, and 8.a.)

LICENSES/OPTIONS EXECUTED WITH EQUITY: The number of LICENSES/OPTIONS that were executed in the year surveyed that included EQUITY, where EQUITY is defined as an institution acquiring an ownership interest in a company. (See Question 6.a.)

LICENSES/OPTIONS YIELDING LICENSE INCOME: The number of LICENSES/OPTIONS that generated LICENSE INCOME RECEIVED in the year requested. (See Question 8.a.)

LIFE SCIENCE: All works derived from such disciplines as biology, medicine, chemistry (basic), pharmacy, medical devices, and those involving human physiology and psychology, including discipline-related inventive subject matter such as software and educational material. (See Questions 6.d, 8.b, and 12.f.)

NEW U.S. PATENT APPLICATIONS FILED: NEW U.S. PATENT APPLICATIONS FILED is a subset of TOTAL U.S. PATENT APPLICATIONS FILED. It does not include continuations, divisionals, or reissues, and typically does not include CIPs. A CIP may only be counted as a new patent application if filed with substantially new matter. A provisional application may be counted as new. (See Question 11.)

NON-EXCLUSIVE LICENSE: The assignment of a license between exclusive and non-exclusive should adhere to the terms of the license agreement. If a license is designated as non-exclusive in the license agreement, it should be assigned to non-exclusive licenses under this survey. (See Question 6.c.)

OPERATIONAL: A company that possesses sufficient financial resources and expends these resources to make progress toward stated business goals. The company must also be diligent in its efforts to achieve these goals. (See Questions 12.b, 12.e, and 12.f.)

PHYSICAL SCIENCE: All works derived from such disciplines as engineering, software, and business systems. (See Questions 6.d, 8.b, and 12.f.)

TECHNOLOGY TRANSFER ACTIVITIES: TECHNOLOGY TRANSFER ACTIVITIES include those activities associated with the evaluation, protection, marketing, and licensing of technology (including trademarks but not university's insignia) and intellectual property management, in general. It encompasses all other activities also associated with the day-to-day operations of a technology transfer office, including assisting with the negotiation of research agreements, MTAs, reporting of inventions to sponsors, and all other duties performed by the office. (See Question 3.)

TECHNOLOGY TRANSFER OFFICE: The office that manages and performs the TECHNOLOGY TRANSFER ACTIVITIES. Often referred to as a technology licensing office. (See Question 4.)

TOTAL RESEARCH EXPENDITURES: TOTAL RESEARCH EXPENDITURES include expenditures made by the institution in support of its research activities that are funded by all sources including the federal government, local government, industry, foundations, voluntary health organizations (i.e., AHA, ACS, etc.), and other nonprofit organizations. (See Question 5.)

TOTAL U.S. PATENT APPLICATIONS FILED: TOTAL U.S. PATENT APPLICATIONS FILED includes any filing made in the U.S. during the year requested, including provisional applications, new filings, CIPs, continuations, divisionals, and reissues. (See Question 11.)

U.S. PATENTS ISSUED: U.S. PATENTS ISSUED includes the number of U.S. patents issued or reissued to your institution in the year requested. (See Question 11.)

VALUE OF ALL EQUITY HOLDINGS: VALUE OF ALL EQUITY HOLDINGS refers to EQUITY that is related to licensing activity at the institution and should be determined using the following guidelines: If your institution holds equity in a publicly-traded company, use the market price of your institution's holdings on the closing day of the period for which you are reporting. If your institution holds equity in a privately-held company, use the price established in the most recent transaction as the fair market price. If your institution holds common stock, but investors are buying preferred stock which converts into common stock upon the occurrence of certain events (e.g., IPO or acquisition), calculate the value assuming conversion has occurred. (See Question 9.)

Table 12	Total and New U.S. Patent Applications Filed for Fiscal Year (FY) 1996
Table 13	U.S. Patents Issued for Fiscal Year (FY) 1996
Table 14	Start-Up Companies Formed for Fiscal Year (FY) 1996
Table 15	Licenses Executed with Equity for Fiscal Year (FY) 1996

PROFESSIONAL FTE: PROFESSIONAL FTEs include persons employed in the TECHNOLOGY TRANSFER OFFICE and, in rare instances, those whose duties are *specifically assigned* to providing professional support for TECHNOLOGY TRANSFER ACTIVITIES, i.e., an industrial liaison, intellectual property counsel, but not other persons employed in an office of sponsored programs. (See Question 4.)

RESEARCH EXPENDITURES: FEDERAL GOVT. SOURCES: RESEARCH EXPENDITURES: FEDERAL GOVT. SOURCES include expenditures made in FY 1996 by the institution in support of its research activities that are funded by the federal government. (See Question 5.)

RESEARCH EXPENDITURES: INDUSTRIAL SOURCES: RESEARCH EXPENDITURES: INDUSTRIAL SOURCES include expenditures made in FY 1996 by the institution in support of its research activities that are funded by *corporations*, but not expenditures supported by other sources such as foundations and other nonprofit organizations. (See Question 5.)

RESEARCH FUNDING: RESEARCH FUNDING includes the total amount of research support committed to your institution (even if the funds are to be spent over several years) that was related to LICENSE or OPTION AGREEMENTS executed in the survey period. (See Question 7.)

RUNNING ROYALTIES: For the purposes of this survey, RUNNING ROYALTIES are defined as royalties earned on the sales of products. Excluded from this number are license issue fees, payments under options, termination payments, and the amount of annual minimums not supported by sales. Also excluded from this amount is CASHED-IN EQUITY, which should be reported separately. (See Question 8.c.)

SMALL COMPANY: A company that had 500 or fewer employees at the time the license/option was signed, but, for the purposes of this survey, not including START-UP COMPANIES initiated by your institution. (See Question 6.b.)

START-UP COMPANIES: As used in this survey, START-UP COMPANIES are companies that were dependent upon licensing the institution's technology for initiation (see Question 12). If a technology was licensed to an existing START-UP COMPANY, but not to a START-UP that was dependent upon your technology for initiation, this company should be counted as a SMALL COMPANY when responding to Question 6.b, as opposed to a START-UP COMPANY. START-UP COMPANIES, as used in this survey, will continue to refer only to those companies that were dependent upon your institution's technology for initiation. (See Questions 6.b, and 12.a-12.g.)

START-UP COMPANY INFORMATION SHEET: An attachment to the cover letter to this survey that shows previously reported data for START-UP COMPANIES for the institutions that provided data for START-UP COMPANIES as part of the AUTM Licensing Survey in earlier years; namely, Fiscal Years 1993, 1994, or 1995. (See Questions 12.e-12.g.)

SUPPORT STAFF FTE: SUPPORT STAFF FTEs include persons in the TECHNOLOGY TRANSFER OFFICE who provide staff support for TECHNOLOGY TRANSFER ACTIVITIES. (See Question 4.)

these holdings. An internal sale (e.g. to the endowment) will constitute cashing-in if the transaction results in cash being made available for internal distribution. (See Questions 8.c and 9.)

EQUITY: EQUITY, for the purposes of this survey, is defined as an institution acquiring an ownership interest in a company (e.g., stock and rights to receiving stock). (See Questions 6.a, 9, and 12.g.)

EXCLUSIVE LICENSE: The assignment of a license between exclusive and non-exclusive should adhere to the terms of the license agreement. If a license is designated as exclusive in the license agreement, it should be assigned to exclusive licenses under this survey, including licenses that are designated as exclusive by field of use, territory, or otherwise. (See Question 6.c.)

INVENTION DISCLOSURES: INVENTION DISCLOSURES include the number of disclosures, no matter how comprehensive, that are made in the year requested and are counted by the institution. (See Question 11.)

LARGE COMPANY: A company that had more than 500 employees at the time the license/option was signed. (See Question 6.b.)

LEGAL FEES EXPENDITURES: LEGAL FEES EXPENDITURES include the amount spent by an institution in external legal fees for patents and/or copyrights. This amount includes fees incurred in support of prosecution, maintenance, litigation, and interference costs. They do not include direct payment of patenting costs by licensees. (See Question 10.)

LEGAL FEES REIMBURSEMENTS: LEGAL FEES REIMBURSEMENTS include the amount reimbursed by licensees to the institution for LEGAL FEES EXPENDITURES, including reimbursement of fees related to prosecution, maintenance, litigation, and interference costs. (See Question 10.)

LICENSE INCOME PAID TO OTHER INSTITUTIONS: LICENSE INCOME PAID TO OTHER INSTITUTIONS (referred to in previous years as "Royalties Received Paid to Other Institutions") is a subset of LICENSE INCOME RECEIVED and should not be subtracted from the total. This number will be used to better define the double-count of LICENSE INCOME reported under this survey. It includes the amounts paid to other institutions under inter-institutional agreements. (See Question 8.a.)

LICENSE INCOME RECEIVED: LICENSE INCOME RECEIVED (referred to in previous years as "Royalties Received") includes: license issue fees, payments under options, annual minimums, running royalties, termination payments, the amount of equity received when cashed-in, and software end-user license fees equal to \$1,000 or more, but not research funding, patent expense reimbursement, a valuation of equity not cashed-in, software end-user license fees less than \$1,000, or trademark licensing royalties from university insignia. (This is essentially the *same definition* used in previous years for Royalties Received.) (See Questions 8.a-8.c.)

LICENSE INCOME RECEIVED FROM OTHER INSTITUTIONS: LICENSE INCOME RECEIVED FROM OTHER INSTITUTIONS (referred to in previous years as "Royalties Received From Other Institutions") is a subset of LICENSE INCOME and should not be subtracted from the total. It

INSTRUCTIONS AND DEFINITIONS

AUTM Licensing Survey (FY 1996)

INSTRUCTIONS:

Please answer each question carefully. Every question has been worded to attempt to reduce ambiguities. If you are not able to provide an exact response to a question, we would like you to provide your *best estimate* to the question, as opposed to providing no answer at all. Recognizing that misinterpretations may still occur, you are encouraged to contact Ms. Diane Hoffman at (609) 799-6187 if clarification is required. The survey requests data for a complete year regardless of your reporting year, i.e., Fiscal 1996 may be 10/95-9/96 or 7/95-6/96 or 1/1/96-12/31/96.

Do not leave any question blank and do not use a hyphen to respond. If the data are not available, note "N.A.". If the data are zero, be sure to note "0".

DISCUSSION OF THE QUESTIONS:

A discussion of the questions follows to aid in an accurate interpretation of the data requested.

Question 1: Self-explanatory.

Question 2: Self-explanatory.

Question 3: Enter the year in which your institution assigned at least 0.5 Professional FTE in support of Technology Transfer Activities. This year will be used as the start of Technology Transfer Activity at your institution. The individual assigned to Technology Transfer Activities may or may not have had a formal tech transfer job title and may or may not have been in an organizational unit with "technology transfer" in its title, i.e., technology transfer/licensing office.

Question 4: This question replaces the old questions on staffing levels. *You are no longer required to assign an estimate of FTEs for licensing activities.* See definitions for Professional FTE and Support Staff FTE when responding to this question.

Question 5: This is the *same question* asked in previous surveys for the reporting of research expenditure data.

Question 6: The first portion of this question, 6.a, requests the *same information* asked in previous surveys. Sections 6.b, 6.c, and 6.d request additional detailed data. Specifically, in 6.b the sum of Licenses/Options executed with Start-Ups, Small Companies, and Large Companies will equal the number of Licenses/Options executed in Fiscal Year 1996. In 6.c the sum of Licenses/Options negotiated as Exclusive and Non-Exclusive Licenses will equal the number of Licenses/Options executed in Fiscal Year 1996. Finally, in 6.d the sum of Active Licenses/Options assigned to Life Science and Physical Science will equal Total Active Licenses/Options reported for your institution in 6.a.

Question 7: This is the *same question* asked in previous years of the survey. It requests Research Funding that was committed to your institution that was related to License or Option Agreements executed

New!! 8.c) How much of the LICENSE INCOME RECEIVED can be attributed to RUNNING ROYALTIES and to CASHED-IN EQUITY?

<i>Year</i>	<i>License Income Received (Same as 8.a)</i>	<i>License Income Received: Running Royalties</i>	<i>License Income Received: Cashed-In Equity</i>	<i>License Income Received: All Other Types</i>
<i>Fiscal Year 1996</i>				

9. EQUITY INCOME:

New!!

How much **CASHED-IN EQUITY** did your institution receive in Fiscal Year 1996? What is the current **VALUE OF ALL EQUITY HOLDINGS** for your institution at this time?

(Current Value of All Equity Holdings will be reported only in aggregate)

<i>FY 1996 Amount of Cashed-In Equity (Same as 8.c)</i>	<i>Current Value of All Equity Holdings</i>

10. LEGAL FEES EXPENDITURES AND REIMBURSEMENTS:

How much did your institution spend in external legal fees (**LEGAL FEES EXPENDITURES**) for patents and/or copyrights? How much did your institution receive in reimbursements for these fees from licensees (**LEGAL FEES REIMBURSEMENTS**)?

<i>Year</i>	<i>Amount Spent in External Legal Fees</i>	<i>Amount Reimbursed by Licensees</i>
<i>Fiscal Year 1996</i>		

11. PATENT-RELATED ACTIVITY:

How many **INVENTION DISCLOSURES** were received, **U.S. PATENT APPLICATIONS FILED**, and **U.S. PATENTS ISSUED** to your institution in Fiscal Year 1996? Of the **TOTAL U.S. PATENT APPLICATIONS** filed, how many of these filings were **NEW U.S. PATENT APPLICATIONS FILED**?

<i>Year</i>	<i>Invention Disclosures Received</i>	<i>Total U.S. Patent Applications Filed</i>	<i>New U.S. Patent Applications Filed</i>	<i>U.S. Patents Issued</i>
<i>Fiscal Year 1996</i>
