

*AUTM*

*2000*

*Annual Meeting*

**Looking to the  
Future, Learning  
from the Past:  
25 Years of AUTM**

*Hyatt Regency Hotel*

*Atlanta, Georgia*

*February 24 - 27, 2000*

**MEETING AT A GLANCE:****Wednesday, February 23**

- 9:00 AM Board of Trustees Meeting
- 1:00 PM Canada Region Meeting
- 4:00 PM Registration Opens
- 5:30 PM Canada Region Reception

**Thursday, February 24**

- 7:00 AM Registration Desk Opens
- 7:00 AM Vendor Exhibits Open
- 7:00 AM Continental Breakfast
- 8:00 AM Educational Tracks 1 - 9
- 10:00 AM Break
- 10:30 AM Educational Tracks cont.
- 12:00 N Luncheon
- 1:15 PM Plenary Session
- 3:00 PM Break
- 3:30 PM Workshops A1-A10
- 5:30 PM New Member/Volunteer Reception
- 6:30 PM Welcoming Reception

**Friday, February 25**

- 7:30 AM Registration Desk Opens
- 7:30 AM Vendor Exhibits Open
- 7:30 AM Continental Breakfast
- 7:30 AM Committee Breakfasts
- 8:30 AM Plenary Session
- 9:15 AM Annual Business Meeting
- 10:00 AM Break
- 10:30 AM Workshop Sessions B1-B10
- 12:00 N Lunch/All Participants
- 1:30 PM Conversation with the Commissioner
- 2:00 PM SIG Meetings
- 4:00 PM Networking Fair

**Saturday, February 26**

- 7:30 AM Registration Desk Opens
- 7:30 AM Vendor Exhibits Open
- 7:30 AM Continental Breakfast
- 7:30 AM Committee Breakfasts
- 8:30 AM Workshop Sessions C1-C11
- 10:00 AM Break
- 10:30 AM Workshop Sessions D1-D10
- 11:00 N Golf Outing
- 12:00 N Free Afternoon
- 6:30 PM AUTM Dinner

**Sunday, February 27**

- 9:00 AM New Board Meeting

**REGISTRATIONS** To qualify for the "early" registration fee, your registration form **AND PAYMENT** must be received by **January 17, 2000**. Faxed registration forms which do not contain a credit card number **DO NOT QUALIFY** as "paid" registrations. Faxed registrations received after **January 17, 2000**, including those with a credit card number, will be assessed the higher registration fee.

**HOTEL RESERVATIONS**

AUTM has reserved a large block of rooms at The Hyatt Regency Hotel in Atlanta. Reservations may be made directly with the Hyatt by calling 404-577-1234, Mondays through Fridays from 9:00 AM to 5:00 PM and asking for Reservations. The reservation cut-off date with the hotel is **January 23, 2000**.

**LIST OF ATTENDEES**

AUTM Headquarters must receive your registration form no later than **February 9, 2000**, to be listed in the official preregistered attendee list. Please note that your name and organization will appear **exactly** as you have indicated on your registration form. Registration forms received after February 9, 2000, will be included on a list of late registrants.

**REGISTRATION**

**CONFIRMATIONS** You will receive written confirmation from AUTM for your meeting registration within ten days of receipt of your registration form and payment. If you do

not receive confirmation after two weeks, please call 203-845-9015 and ask for Gale Ungar.

**CANCELLATIONS** If received in writing before **February 14, 2000**, we will be happy to refund your registration fee. Note that a \$50 administrative fee will be deducted from all refunds.

Understandably, fees cannot be refunded for registrations cancelled after **February 14, 2000**. Substitutions, however, can be made up until the start of the meeting.

**LATE REGISTRATIONS**

New registrations faxed after **February 15, 2000**, will be processed as "On-Site" registrations, at the corresponding registration fee.

**VENDOR BOOTHS**

registrants at the AUTM 2000 Annual Meeting, wishing to showcase their products or services, can sign up for a Vendor Booth. These booths will be open during the entire Annual Meeting from 7:00 AM Thursday, February 24, through noon on Saturday, February 26. They will be located around the perimeter of the hotel's Exhibit Hall which will also be used for all continental breakfasts, coffee breaks, and the Friday afternoon Networking Fair.

The deadline to register for a Booth is **January 25, 2000**. Registration forms are available in this annual meeting packet. Please note that Vendor Booths are available only to registrants for the AUTM 2000 Annual Meeting.

**Wednesday, February 23**

- 9:00 AM - 5:00 PM AUTM Board of Trustees Meeting
- 1:00 PM - 5:00 PM AUTM Canada Region Membership Meeting (see registration form for sign-up... there will be an additional \$10.00/US\$ program fee for this session)
- 4:00 PM - 10:00 PM Registration Desk Open
- 5:30 PM - 7:00 PM AUTM Canada Region Reception (cash bar) (see registration form to sign up)
- 6:30 PM - 10:00 PM AUTM President's Dinner

**Thursday, February 24**

- 7:00 AM - 5:00 PM AUTM Registration Desk Open
- 7:00 AM - 5:00 PM Vendor Exhibits Open
- 7:00 AM - 8:00 AM Continental Breakfast
- Committee Breakfasts:  
**Survey/Statistics/Metrics Committee (closed)**  
Chair: **Daniel E. Massing**, Cornell Research Foundation

**8:00 AM - 10:00 AM EDUCATIONAL TRACK 1**

**PATENT PRIMER** The panel will provide an overview of the patent prosecution process from the perspective of the Applicant and the PTO as well as discussing patenting strategies and special considerations for patenting of biotech inventions. The session is appropriate for both newcomers as well as those with experience as an update concerning PTO policies and procedures will be provided.

- Moderator: **Jane Massey Licata**, Law Offices of Jane Massey Licata
- Presenters: **David E. Brook**, Hamilton Brook Smith & Reynolds  
**David L. Parker**, Arnold, White & Durkee  
**Margaret Parr**, US Patent and Trademark Office

**EDUCATIONAL TRACK 2**

**TRADEMARK PRIMER** This Track covers terminology (trademarks, service marks, tradenames) selection and adoption of a mark (fanciful, arbitrary, descriptive and generic marks), trademark search (on-line searching, the Internet), registration in the US Patent and Trademark Office (actual use and intent-to-use applications), and how to properly use a mark.

- Speaker: **William H. Needle**, Needle & Rosenberg, PC

Thursday, February 24 ... cont'd

### EDUCATIONAL TRACK 3

**SOFTWARE MANAGEMENT** ... Software has become an important part of University technology transfer portfolios. However, because of the unique nature of software-based products, specialized methods of dealing with such products must be adopted. This educational track will provide attendees with a basic understanding of software marketing principles. The track will address such topics as: Software Intake and Evaluation; Methods for Pricing Software; IP Protections Available for Software; Software Licensing Basics; and Software Marketing Methods. The track will be highly interactive and great handouts will be provided.

Moderator: **Mark G. Bloom**, Wisconsin Alumni Research Foundation

Presenters: **Paul R. Betten**, Argonne National Laboratory  
**Angus Livingstone**, University of British Columbia

### EDUCATIONAL TRACK 4

**OFFICE OPERATIONS AND TOOLS OF THE TRADE** ... Learn from the past and look to the future through our panel of experienced license professionals. We'll discuss the day-to-day operational dilemmas confronted by those of you with small- to medium-sized technology transfer offices. Some of the issues we'll cover are: compliance, legal expense tracking, personnel (where to find people and what kind of background to look for), office organization (including operating tools), and how to work most effectively with the staff you have. An extended question and answer period will be given at the end to address issues.

Moderator: **Kirsten Leute**, Stanford University

Presenters: **Joyce Brinton**, Harvard University  
**Pamela Lynne Cox**, Univ. of Notre Dame Law School  
**Katharine Ku**, Stanford University  
**Todd T. Sherer**, University of Oregon  
**Sandra L. Shotwell**, Oregon Health Sciences University  
**Linda S. Stevenson**, University of California

### EDUCATIONAL TRACK 5

#### NEGOTIATING RESEARCH AND LICENSE AGREEMENTS

Moderator: **W. Mark Crowell**, North Carolina State University

Presenters: (to be announced)

### EDUCATIONAL TRACK 6

**THE WHEN TO AND HOW TO OF START-UPS: BASIC** ... This Track will provide a unique combination of panelists. The views of a university, a venture capitalist, start-up management, and an attorney will be included in this session on the basics of deciding when to form a start-up followed with the how to's to accomplish the task.

Moderator: **Christine B. Powaser**, BCM Technologies, Inc.

Presenter: **Mark E. Coticchia**, Carnegie Mellon University

Thursday, February 24 ... cont'd

### EDUCATIONAL TRACK 7

**EQUITY TRANSACTIONS** ... More and more universities are licensing technology into entrepreneurial, high growth companies, many of them start-ups, and taking equity in the company as full or partial consideration for the license. Negotiating and structuring equity licenses, however, confronts the university with a host of complex (and often unfamiliar) issues. In order to structure effective equity license deals, the university needs to understand the objectives and motivations of each of the parties involved (the entrepreneur, the inventor, the investor and the university). If this is not difficult enough, this whole process is made more challenging when the potential licensee is a start-up. In this interactive session, you will help build a new start-up company from the ground up by working with the panel and the audience to: analyze a strategic plan for a new promising technology; structure an equity license deal with the university in a way that optimizes the university's position while managing the risks to the university; negotiate the initial financing for the company; and determine the adequacy of the "team." Vigorous audience participation and Q&A will be encouraged throughout the presentation.

Moderator: **Kathryn A. Donohue**, Pepper Hamilton, LLP

Presenter: **Franklin B. Holland**, Pepper Hamilton, LLP

### EDUCATIONAL TRACK 8

**VALUATION 101: HOW TO DETERMINE WHAT YOUR TECHNOLOGY IS WORTH** ... This topic has been covered as a Workshop at the last two Annual Meetings, and has always produced the reaction that too much was covered in too short a time. Therefore, it's been expanded to a half day educational track. It is intended for newer members of AUTM and is structured to get experienced licensing professionals to lay out some of the basic considerations and techniques of technology valuation that are important in developing and implementing licensing transactions. Ashley Stevens will give an overview of basic technology valuation techniques used and will provide some resources for finding comparable transaction terms on the Web. Martha Luehrmann will discuss developing a spreadsheet based on a simple model of the licensee's business using a freeware Excel template available from AUTM. Don Kirksey will discuss the important areas of a License Agreement that impact the value that is extracted. Teri Willey will discuss equity structure of new companies and how to extract the value of a technology through a start-up company. Martha Samuelson will discuss how technologies are valued in patent litigation.

Moderator: **Ashley J. Stevens**, Boston University

Presenters: **Don Kirksey**, AtheroGenics, Inc.  
**Martha Luehrmann**, University of California, Berkeley  
**Martha Samuelson**, Analysis Group Economics, Inc.  
**Teri Willey**, ARCH Development Corporation

### EDUCATIONAL TRACK 9

**POWERFUL PRESENTATIONS** ... Learn how to move your ideas from concept to reality! Presenting ideas, clearly and confidently, is a key skill for technology managers. Attend this half-day workshop and you will learn how to: Quickly organize a presentation to any audience (attorneys, faculty, venture capitalists, etc.); Sell your ideas, programs, proposals; communicate technical information to non-technical audiences; channel your nervous

Thursday, February 24 ... cont'd

energy, so you are more comfortable and effective when presenting, and create and use visual aids that add impact to your talk. It's a hands-on workshop. You will apply these ideas to real-life situations and walk away with tools you can use right away. (NOTE: there will be an additional charge of \$100.00 per person for this Educational Track. Sign up on the enclosed registration form.)

Presenter: **Dave Underhill**, Underhill Training and Development

10:00 AM - 2:30 PM

**Accompanying Person Tour of Atlanta ... "Simply Southern"** ... see enclosed flyer for more details then sign up on the enclosed registratin form

10:00 AM - 10:30 AM

Break

10:30 AM - 12:00 PM

Educational Tracks continue

12:00 PM - 1:15 PM

Luncheon for All Registrants

Committee Lunch:

**Publications**

Chair: **Trice Bryan**, University of California at Irvine

**Bylaws**

Chair: **Stewart N. Davis**, BCM Technologies, Inc.

1:15 PM - 3:00 PM

Plenary Session  
Welcome and Opening Remarks

**ACADEMIA, VENTURE CAPITAL AND THE BIOTECHNOLOGY INDUSTRY: WILL THE TRIANGLE BE ETERNAL?**

**Dr. Alan G. Walton**

General Partner, Oxford Bioscience Partners

**KNOWLEDGE, COMPLEXITY AND LEARNING: TRUST BASED KNOWLEDGE FLOWS BETWEEN INDUSTRY AND ACADEMIA**

**Dr. David J. Snowden**

European Director, Institute for Knowledge Management, IBM (UK)

3:00 PM - 3:30 PM

Break

3:30 PM - 5:00 PM

**WORKSHOP SESSION A**

**A1 TAX ISSUES WITH LICENSING** ... The IRS is challenging the exemption from taxation of revenues derived from exclusively licensed intellectual property arrangements. The purpose of the discussion is to provide the best defensible position to take with alternatives and to elaborate on the documentation required to build an audit file sufficiently.

Moderator: **Edward J. Jennings**, University of Michigan

Speakers: **C. Randy Dillon**, KPMG

**Benjamin Griffiths**, University of Wisconsin

Thursday, February 24 ... cont'd

**A2 EQUITY: HOW TO MANAGE IT ONCE WE GET IT** ... The FY 1997 AUTM Licensing Survey revealed that the top ten schools for Gross License Income reported \$17 million of that income came from Cashed-In Equity. This income source has certainly become important. Also, responding institutions noted 251 deals done in FY 1997 with an equity component. This panel will look at key issues that a tech transfer office should consider both before and after it has accepted equity. In many cases, the tech transfer office will only have a success when the parent institution receives cash upon the sale of the equity.

Moderator: **Stephen J. Banks**, BCM Technologies, Inc.

Speakers: **Greg Hauth**, CIBC Oppenheimer

**Ronald S. Howell**, Washington Research Foundation

**Jeffrey J. Sheldon**, University of Texas MD Anderson Cancer Center

**A3 RESEARCH CONSORTIA INVOLVING UNIVERSITY/INDUSTRY COLLABORATION** ... University research by definition is fundamental in nature. Industry is often interested in fundamental work but rarely has the appetite to commit major resources to projects so early in the innovation process. One way of dealing with this issue is through the development of research consortia which offer significant opportunity for leveraging of resources, easily attaining leverage of ten times or more of a company's contributions. However, the organization of these consortia can be difficult and take time. This workshop will focus on the formation, the organization, and the contractual arrangements that have been successful in different models of consortia and will include funding models and IP arrangements.

Moderator: **Joe Brennan**, Materials & Manufacturing Ontario

Speakers: **Glennia R. Campbell**, Stanford University

**Doug Reeve**, Toronto Pulp and Paper Consortium

**A4 OWNERSHIP/LICENSE OF TANGIBLE RESEARCH PRODUCTS**

Industry and university perspective

Moderator: **Spencer Lemons**, Wake Forest University

Speaker: (to be named)

**A5 BUSINESS MODELS IN LICENSING/SOFTWARE AND DIGITAL MEDIA** ... How businesses function and generate revenue makes a difference in how we license. Software provides a framework for seeing broader models of licensing. Use of intellectual property as a loss leader, as an investor asset, or as channel access can be sources of value to a business. These can be recognized in a license, but not as a rent on sales. Come learn why non-exclusive licensing may be the first best choice in some areas and not others, how publishers look at content, and what may drive choices in structuring software and digital media licenses. For those handling patents, especially engineering technologies, this session may help you develop new strategies for their licensing.

Moderator: **Patrick L. Jones**, University of Washington

Speaker: **Gerald Barnett**, University of Washington

Thursday, February 24 ... cont'd

**A6 ... MANAGING THE MATURE PORTFOLIO** ... As technology licensing offices grow and mature, new problems and opportunities arise. This workshop examines the maturing office and the maturing officer. For the office itself, this includes weeding the patent portfolio, care-and-feeding large numbers of licensees, and preventing collisions between new industrial research sponsors and background patents. For the mature officer, the issues include coping with overload, delegating to others, preventing burnout, and staying fresh.

Moderator: **Jon Sandelin**, Stanford University  
Speaker: **Lita Nelsen**, Massachusetts Institute of Technology

**A7 ... INTERNATIONAL PATENT LAW** ... Should we really protect in China, South America? Dual ownership issues in some countries.

Moderator: **J. Renes**  
Speaker: (to be named)

**A8 ... VALUING TECHNOLOGY FROM MULTIPLE PERSPECTIVES: COMPARABLES, CONCURRENT NEGOTIATION, COMMON SENSE, APPORTIONMENT AND BUSINESS MODELS** ... With the early stage technologies we work with, there are enormous uncertainties at the time we must "price" our assets. This workshop will address the resources and case experience we hope you will find useful in developing your economic proposals.

Moderator: **Teri Willey**, ARCH Development Corporation  
Speakers: **Richard F. Cox, Jr.**, Wheeling Jesuit University/NTTC  
**Natalie E. Dakers**, NeuroMed Technologies, Inc.  
**Daniel M. McGavock**, IPC Group, LLC

**A9 ... SEMICONDUCTOR PATENTING AND LICENSING** ... Many semiconductor technologies are invented in universities, yet few are exploited and licensed by industry. How can the licensing landscape be transformed to improve the semiconductor flow between universities and industry?

Moderator: **Linda Chao**, Stanford University  
Speaker: **Ron Epstein**, Intel Corporation

**A10 ... BIOTECH PATENTING** ... This session will describe the most recent and significant developments in patent statutory and case law. More specifically, this session focuses on trends seen in the law currently and the effects of these trends or changes on the scope and proprietary patent protection afforded to biotechnological inventions. Other subjects will include: Legal trends that reduce the scope of patent protection; patent office examination regarding enablement of pharmaceutical and biotechnological inventions; new defenses to patent infringement; and Supreme Courts interpretation of the Doctrine of Equivalents

Moderator: **Benjamin Aaron Adler**, McGregor & Adler, PC  
Speaker: (to be named)

Thursday, February 24 ... cont'd

5:30 - 6:30 PM New Member/Volunteer Reception

6:30 PM - 9:30 PM Welcoming Reception for all Attendees

Friday, February 25

7:30 AM - 5:00 PM AUTM Registration Desk Open

7:30 AM - 5:00 PM Vendor Exhibits Open

7:30 AM - 8:30 AM Continental Breakfast

Committee Breakfasts

**Web Site Committee**

Chair: **Marjorie Forster**, University of Maryland/Baltimore

**Government Affairs Committee**

Chair: **Fred H. Reinhart**, Wayne State University

**Membership Committee**

Chair: **Jon Sandelin**, Stanford University

8:30 AM - 9:15 AM Plenary Session

**THE INTERNET'S AFFECT ON SCIENCE OR THE END OF SOFTWARE AS WE KNOW IT!**

**Howard D. Goldstein**  
President & CEO, eBioinformatics, Inc.

9:15 AM - 10:00 AM Annual Business Meeting

10:00 AM - 10:30 AM Break

10:30 AM - 12:00 PM **WORKSHOP SESSION B**

**B1 ... CLINICAL TRIALS AGREEMENTS** ... Contract research organizations and academic hospitals seek to expand their roles as managers of multi-site clinical trials. This panel will address issues arising from the role of the CRO or hospital as the coordinator of the multi-site clinical trial. This panel anticipates discussions concerning the objectives and requirements of trial sponsors; the selection of the trial manager; the negotiation of sponsor agreements; the negotiation of site agreements and the practical problems in administering multi-site trials.

Moderator: **Donald T. Deyo**, University of Pennsylvania  
Speaker: **Jane Massey Licata**, Law Offices of Jane Massey Licata

**B2 ... HOW PROFESSIONAL RISK MANAGERS VIEW THE RISKS OF TECHNOLOGY TRANSFER** ... Evaluating an institution's ability and commitment to reduce and manage the risks of intellectual property and

Friday, February 25 ... cont'd

technology transfer requires both objective and subjective judgments. An underwriter who specializes in intellectual property insurance will discuss the underwriting and insuring process. Two experienced insurance brokers will review their methods of assisting clients with intellectual property risks to understand the coverage options available, presenting clients in the best light to underwriters, and helping clients choose the right insurance package for their needs and budget. A university risk manager will discuss how insurance and contractual terms can be used to get licenses done while protecting the institution.

Moderator: **Elizabeth Cherry**, University of Washington  
Speakers: **Janet Cermak**, Marsh, an MMC Company  
**Dominic Davison-Jenkins**, Marsh, an MMC Company

**B3 LICENSING RESEARCH TOOLS** ... Animals and transgenics as research tools; Matis cell lines, vectors, etc.

Moderator: **Simran Trana**, University of Georgia Research Foundation, Inc.  
Speakers: **Richard S. Cahoon**, Cornell Research Foundation  
**Maria C. Freire**, National Institutes of Health  
**Donald S. Lucas**, Procter & Gamble Pharmaceuticals

**B4 ... GROWTH SEGMENTS: BIOTECH** ... In the past decade new technologies have been developed and fields spawned that are transforming the Life Sciences. For example in the near future DNA Chips will be available that will enable researchers to monitor the expression of the whole genome simultaneously. These technologies are raising unprecedented bioethical/legal (e.g., stem cells) and intellectual property (e.g., DNA Chips) issues. This session will discuss some of the rapidly growing fields in the biotechnology industry and explore some of the related bioethical/legal and IP issues. Areas that the panel will cover include: stem cells, functional genomics, and bioinformatics (including DNA or BioChips).

Moderator: **Richard Kordal**, Indiana University  
Speakers: **James (Rick) Ludwig**, Eli Lilly and Company  
**Judy Stringer**, Mass High Tech

**B5 BEST PRACTICES IN TECH TRANSFER** ... Examples in US, Europe, Canada

Moderator: **Koenraad Debackere**, ETH Switzerland  
Speakers: **Richard Cox**, Wheeling Jesuit College/NTTC  
**Evelyn McConathy**, Dilworth & Paxton

**B6 ... INTERINSTITUTIONAL AGREEMENTS** ... This will be a hands on discussion of an agreement reached by the University of Florida and Johns Hopkins University (real case study) which will involve re-creation of the actual events as they occurred in the negotiations. We will touch on what to have (and not to have) in an agreement of this sort. Similar areas are covered when bringing an outsider into your organization to conduct research. This discussion is exceptionally relevant as these two individuals are negotiating just such an agreement between their respective institutions. There will be time for open discussion and questions.

Friday, February 25 ... cont'd

Moderator: **Michael Herforth**, University of Central Florida  
Speakers: **Bruce D. Clary**, University of Florida  
**Nina Siegler**, Johns Hopkins University

**B7 ... IP PROTECTION OF SOFTWARE - BOOTING UP IN THE NEW**

**AGE** ... For years, the standard route for protection was through copyright or trade secrets. Software patents were granted, but these patents were few and far between as severe restrictions on the scope and focus of software patents limited their issuance to mostly hardware "tied" programs. For universities, the cost and time involved in software patents even further limited their application. However as the 21<sup>st</sup> century arrives and with the Internet and the explosion of computers, both for the office and home, the shift in the standard of software protection has begun. The panel will discuss recent allowances of Internet based software patents seeming to indicate a "lift" of the restrictions from the past. And although copyrights and trade secrets are still used for protecting software, trademarks are expanding the scope of protection and marketability of software. In addition, we will explore how trade secrets can be used by universities as an alternative means of software protection, and still maintain the university mission for public dissemination of knowledge.

Moderator: **Alice Um**, Foley & Lardner  
Speakers: **David A. Blumenthal**, Foley & Lardner  
**Charles C. Valauskas**, Applegate Valauskas Rosen & Bernstein

**B8 ... PEOPLE WHO GO BOTH WAYS** ... Ever wonder what it would be like to have your negotiating partner's job? Get the inside story from three seasoned tech transfer professionals who have been there and done that in academia, government and industry.

Moderator: **Vincent La Terza**, Octagen Corporation  
Speakers: **Katharine Ku**, Stanford University  
**H.S. Duke Leahey**, Monsanto Company  
**Jon Soderstrom**, Yale University

**B9 HOW TO DETERMINE INVENTORSHIP** ... The complexity of modern research has created an environment where many scientists must collaborate with colleagues in order to achieve significant results. Often these collaborations involve scientists at different nonprofit institutions or even nonprofit institutions and companies. This weave of relationships and diverse contributions can create confusion in determining inventorship and animosity between parties if the inventorship determination is perceived as being inaccurate or unfair. This session will address various facets of inventorship including how it is determined, corrected, and litigated.

Moderator: **John Wetherell**, Fish & Richardson, PC

**B-10 MARKETING KNOWLEDGE EFFECTIVELY** ... There's a lot of technology out there ... and the number of prospective licensees can be almost overwhelming. This session will help new/smaller TLO's "think like their customers" and learn how to get the word out efficiently. How do large, small, and international companies typically find technology? Are Web-based marketing services worth it? What can you do to keep your technology out of the "black hole." How much can you disclose without a CDA and still pique interest? Come ready to swap tactics during the post-speaker discussion.

Friday, February 25 ... cont'd

Moderator: **Nan Doyle**, Genzyme Corporation  
 Speaker: **Klaus J. Fischer**, Aventis  
**Lauren Miller**, Pfizer, Inc.

**GUEST OF HONOR:**

**The Honorable Q. Todd Dickinson**  
 Assistant Secretary of Commerce and  
 Commissioner of Patents and Trademarks

1:30 PM - 2:00 PM

**Conversation with the Commissioner** ... an opportunity for in-depth discussions on current policies and practices of the USPTO.

2:00 PM - 4:00 PM

**SPECIAL INTEREST GROUP MEETINGS**

**A. BIOTECHNOLOGY PATENTING**

Facilitator: **Benjamin A. Adler**, McGregor & Adler, PC  
 This SIG reviews the important court cases of the last year that involve biotechnology patenting, analyzes trends in the Patent Office that affect biotechnology patenting, and discusses issues faced by inventors and universities when applying for patents on biotechnological inventions.

**B. MATERIAL TRANSFER AGREEMENTS**

Facilitators: **Terry Donaghue**, Mount Sinai Hospital  
**Marjorie Forster**, University of Maryland at Baltimore  
 This SIG serves as a forum to discuss challenges and solutions relating to agreements covering the exchange of research materials between academic institutions as well as exchanges between companies and academic institutions. Members of the MTA SIG serve as a resource to assist all members of the research community to develop solutions to facilitate the exchange of proprietary materials to the betterment of the research enterprise.

**C. IP ON THE INTERNATIONAL SCENE**

Facilitator: **Jon Sandelin**, Stanford University  
 This SIG will be an open forum to discuss how AUTM can better serve its International members. All International members attending this Annual Meeting are invited, as well as persons interested in International issues or who wish to participate on the International Members Committee.

**D. INDUSTRY/AFFILIATE MEMBERS**

Facilitator: **Linda S. Kawano**, GroupOptima  
 This session takes place once a year at the Annual Meeting and serves as an informal means to capture the interests, suggestions, comments, advice, and expertise of affiliate members. The goals of the SIG facilitator are to encourage a lively, thought-provoking discussion and to convey the

Friday, February 25 ... cont'd

information gathered from the session to the AUTM membership and Board. Over the past three years, attendees of this session have provided meaningful suggestions to enhance the university/industry interface.

**E. PLANTS AND PVPA ISSUES**

Facilitator: **Keith A. Johnson**, Rutgers University  
 This SIG is a forum for members interested in the licensing and managing of intellectual property dealing with all aspects of plants, PVP and UPV in protection and the relevant and varied angles that are contemplated licensing this kind of intellectual property.

**F. PHARMACEUTICAL PATENTING**

Facilitator: **Warren D. Woessner**, Schwegman, Lundberg, Woessner & Kluth  
 This group will address concerns related to patenting and licensing new drugs, diagnostics and methods of medical treatment, including Patent Office strategy in view of recent case law, PTO reorganization and new rules.

**G. OFFICES WITH TWO PROFESSIONALS OR LESS**

Facilitator: **Howard Hanson**, University of Notre Dame  
 It seems like the intellectual property rules and regulations are getting more complicated and the expectations of my university and faculty are expanding -- and I'm all by myself! This SIG will give you the opportunity to discuss the issues unique to small TT offices and to network with fellow AUTM members who face the same challenges. Bring your questions and your solutions to share with the group.

**H. CANADIAN NATIONAL CENTRES OF EXCELLENCE**

Facilitator: **Doug Gill**, University of Alberta  
 The Networks of Centres of Excellence (NCE) program, operated by the Canadian Government through its three granting councils, has been in existence since the early 1990s and earlier this year was made a permanent program. These networks (11 are currently active and 3 new ones will be up and going by March) are virtual research organizations which bring together multidisciplinary teams of scientists from a variety of universities to address complex problem areas strategic to Canada's future. Emphasis is on networking, scientific excellence, and technology transfer to industry.

**I. LICENSING START-UP COMPANIES**

Facilitator: **Christopher F. Dippel**, Genetics Institute  
 This SIG will cover and address the relevant issues that would be necessary in dealing with licensing intellectual properties to start-up companies and also in the formation of start-up companies and the various aspects that are involved with this unique side of the technology transfer process from the university environment to the industrial environment.

**J. SOFTWARE/MULTIMEDIA**

Facilitator: **Mark G. Bloom**, Wisconsin Alumni Research Foundation  
 This SIG serves both as a forum and an information source for those members of AUTM who are either actively engaged in or simply wish to learn more about the marketing and licensing of computer software and multimedia works. Topics such as marketing and licensing strategies, patent and copyright law issues, and other relevant subjects have been explored.

## Friday, February 25 ... cont'd

### K. AUTM ATTORNEYS

Facilitator: **Nicholas A. Goodman**, University of Arizona

*This is a forum where legal professionals can discuss current legal issues relevant to university tech transfer. It is designed as an open discussion with an open agenda to allow participants to share information and experiences, to brainstorm, and to network.*

### L. ENTREPRENEURSHIP

Facilitator: **Gregg Schneider**, University of St. Thomas

*This SIG serves both as a forum and an information source for those members of AUTM who are either actively engaged in, or simply wish to learn more about, aspects of entrepreneurship as they concern licensing intellectual property.*

### M. HISTORICALLY BLACK COLLEGES AND UNIVERSITIES

Facilitator: **Tanaga Boozer**, NIST

### N. INDUSTRY SPONSORED RESEARCH AGREEMENTS

Facilitator: **Anita Campbell**, Stanford University

### O. TECHNOLOGY TRANSFER SYSTEMS IN DEVELOPING COUNTRIES

Facilitator: **Karim M. Maredia**, Michigan State University

### P. JAPANESE TECH TRANSFER CASE STUDIES

Facilitator: **Akio Nishizawa**, Tohoku University

4:00 - 7:00 PM

### FIRST ANNUAL NETWORKING FAIR AND TECHNOLOGY EXCHANGE

*Universities, Nonprofit Research Institutions, and Teaching Hospitals will be showcasing their technologies and will be available to meet and identify corporate partners. Industrial meeting participants will have an efficient way to circulate through the Exhibit area and make contacts with their colleagues in Universities and Nonprofit Research Institutions as well as to scout for potential licensing opportunities and other technology transfer initiatives. See the enclosed flyer and registration form for more details.*

### EVENING FREE

## Saturday, February 26

7:30 AM - 4:00 PM

AUTM Registration Desk Open

7:30 AM - 4:00 PM

Vendor Exhibit Open

7:30 AM - 8:30 AM

Continental Breakfast

Committee Breakfasts:

### Outside Organizations Committee

Chair: **Ray Wheatley**, UT Southwestern Medical Center

## Saturday, February 26 ... cont'd

8:30 AM - 10:00 AM

### WORKSHOP SESSION C

**C1 LITIGATION HIGHLIGHTS** ... *Litigation, while typically costly, time consuming and generally unpleasant, usually also serves to highlight areas of weakness in a license agreement, patent or other contract. In this session, a number of situations will be described to highlight various problem areas. Possible modifications to license and contract language to deal with these issues will also be discussed.*

Moderator: **Frances Toneguzzo**, Tufts University

Speakers: **Kathryn Doyle**, Akin Gump  
**Sonia Guterman**, Bromberg & Sundstein  
**Marty Simpson**, University of California

### C2 DEPARTMENT OF VETERANS' AFFAIRS TECHNOLOGY TRANSFER PROGRAM

*The VA conducts research in the areas of biomedicine, rehabilitation, gene therapy, vaccines and other areas of interest to our nation's veterans. This research totals more than \$1 bn. VA researchers often hold joint appointments at affiliated university medical centers. This Workshop will focus on the VA's new initiative in commercializing its inventions and how the VA will interact with its affiliates in this endeavor.*

Moderator: **Jeffrey Solash**, Virtual Consulting Group

### C3 MANAGING RELATIONSHIPS WITH STAKEHOLDERS' COMMUNICATIONS

*This session will focus on how to effectively communicate with the various organizational components, including different levels of university administration and external stakeholders. Included is a discussion on how to manage these relationships and deal with the multiple agendas of the different players such as inventors, chairs, deans, grants and contracts, and vice presidents within the university. In addition, the discussion will encompass external relationships with industry, industrial counsels, political figures and bodies, and other external parties. The various tools to communicate will be overviewed describing what tool works best for different levels of administration and for different situations. In addition, this session will include the perspective of working in a large, multi-campus university and a consortium of unaffiliated universities, each where the number and diversity of players are dramatically increased.*

Moderator: **Gregg W. Kyle**, Coulter Pharmaceutical

Speakers: **C. Gordon Owen**, Nova Universities Technology  
**Wendy D. Streita**, University of California

**C4 ENGINEERING TECHNOLOGIES** ... *How can T<sup>2</sup> offices best market engineering-based technologies? This session will explore the use of prototyping and university/industry consortia as two possible answers to the question. The session is intended to be very interactive and dynamic. In fostering the lively exchange, the speakers will utilize case studies illustrating the good, the bad, and the ugly in partnership formation around engineering technologies.*

Moderator: **Christopher D. McKinney**, University of Tennessee Research Corporation

Speakers: **Arlene A. Garrison**, University of Tennessee  
**David P. Jones**, University of British Columbia

Saturday, February 26 ... cont'd

**C5 ... MARKETING TECHNOLOGIES IN THE PHYSICAL SCIENCES**

*The marketing of commercially attractive technologies in the physical sciences presents a unique set of challenges for the licensing team. In this context a team implies the technologist, the patent personnel, the licensor and the potential licensee. This session will address some of these challenges from the point of view of each of these team members. The importance of setting realistic goals, careful preparation, strategy formulation and implementation in concert with IP protection will be discussed in the context of a recent, successful licensing effort of the Oak Ridge National Laboratory. The moderator's comments will be complemented by the views of each of the team members. In addition, the forum will explore some innovative approaches for marketing technologies in the physical sciences.*

Moderator: **Ashok Choudhury**, Oak Ridge National Laboratory  
Speakers: **James W. Klett**, Oak Ridge National Laboratory  
**Gregory A. Nelson**, Quarles & Brady  
**Lee W. Wiechmann**, POCO Graphite, Inc.

**C6 ... LICENSE AGREEMENT MONITORING** ... *This workshop will provide a comprehensive overview of the royalty auditing process and the current issues in royalty accounting. Recommendations will be made on how to avoid traps and tips for negotiating agreements. Tips to reduce the chances of under-reported licensing revenues will be offered. Samples of licensing language will be provided.*

Moderator: **Peggy N. Halliday**, University of Utah  
Speakers: **Daniel Burns**, PricewaterhouseCoopers  
**Peggy Moizel**, PricewaterhouseCoopers  
**Sidney P. Rattner**, Friedman Eisenstein Raemner & Schwartz  
**James A. Tretheway**, Wisconsin Alumni Research Foundation

**C7 ... STONE SOUP FOR THE TECH TRANSFER SOUL** ... *This session examines new growth areas in the software and microelectronics industry in the context of the convergence trend (coming together) of the significant innovations of our era (software, microelectronics, the internet & biotechnology) toward a new age of innovation - where multiple technologies will interact and enable in an aggregate "technology soup." Understanding these changes is essential for tech transfer professionals who will forge new roles as facilitators in the mass requisite coming together of people and ideas. This session will examine and compel you to consider the institutional, business and professional challenges on the immediate horizon - in preparation for a virtual soup of new products (bioinformatics, biochips, biosensors, Internet and information technology) with new partnerships, business models, and modes of reaching markets. We will look at the forces driving these changes and anticipate the impact on intellectual property, licensing, public markets and the transfer of technologies as they converge.*

Moderator: **Tammy Cousins**, Health Research, Inc.  
Speaker: **Howard Goldstein**, eBioinformatics.com

**C8 ... RETURN OF INVENTIONS: TO WAIVE RIGHTS OR NOT?**  
*How to do, differing policies.*

Saturday, February 26 ... cont'd

Moderator: **Rose Glee**, Florida Agricultural & Mechanical University

Speaker: **Terry Young**, Texas A & M university

**C9 ... WORKING WITH THE FEDERAL LABS** ... *The U.S. federal laboratories are extremely active in technology licensing. A recent GAO study reported that from 1996 to 1998 six federal agencies (not including DOE's labs) executed almost 900 new licenses and received over \$100M in royalties. This workshop looks at the technology licensing at a few of DOE's national laboratories with a goal of providing a look at similarities with university licensing offices. DOE laboratories are operated by contractors (many of which are universities) which are striving to conduct technology licensing in a business-like manner. Federal bureaucracy is a reality that many licensing organizations contend with. Obtaining and licensing patents and other IP under such conditions is a constant challenge. This workshop will introduce the licensing organizations at several such laboratories and provide an opportunity to compare and contrast from the university or industrial licensing perspective.*

Moderator: **R. Russell Miller**, Oak Ridge National Laboratory  
Speakers: **Cheryl Fragiadakis**, Lawrence Berkeley National Laboratory  
**Stephan Lake**, Argonne National Laboratory  
**Jon Soderstrom**, Yale University

**C10 ... ANATOMY OF A HOME RUN - THE CARBOVIR STORY** ... *On October 4, 1999, the University of Minnesota announced the settlement of its litigation against Glaxo Wellcome over the license to a portfolio of patents licensed to Glaxo that the University asserted covered Zidovudine, an anti-AIDS drug that Glaxo began marketing in January. Glaxo paid the University \$7.25 million upon settlement and agreed to a sliding royalty that could yield the University \$300M over the life of the patents (the drug had \$55M in sales its first 6 months on the market). Glaxo conceded validity and infringement. This is probably the largest litigation settlement (and may be the richest license) ever for a drug developed at a University. The panel will discuss the patent strategy, licensing and litigation/settlement agreement.*

Moderator: **Warren D. Woessner**, Schwegman, Lundberg, Woessner  
Speakers: **Kenneth A. Liebman**, Faegre & Benson  
**Anthony L. Strauss**, University of Minnesota

**C11 ... MATERIAL TRANSFER AGREEMENTS: THE DOUBLE-EDGED SWORD** ... *Proprietary reagents and research tools can represent great value to both the academic and corporate world. Both parties need to be aware of the double-edged nature of Material Transfer Agreements (MTAs). These agreements try to reconcile the provider's desire to protect its proprietary interests, while benefiting from the recipient's research results, with a recipient's rights in the results of its research and obligations to publish, patent, or to other third parties. This workshop will address the complexities of the MTA, from the perspective of a university, a biotechnology company and the NIH. By outlining the issues, case studies and the recent NIH guidelines on Research Tools we hope to encourage lively debate on the exchange of valuable materials used in research by both academia and industry.*

Saturday, February 26 ... cont'd

Moderator: **Caroline Bruce**, The University of British Columbia and Affiliated Hospitals  
 Speakers: **Marian Marra**, INCYTE Pharmaceuticals  
**Fred H. Reinhart**, Wayne State University  
**Mary Ann Russell**, The University of Tennessee

10:00 AM - 10:30 AM

Break

10:30 AM - 12:00 PM

**WORKSHOP SESSION D**

**D1 ... ADDING VALUE TO EARLY STAGE TECHNOLOGIES ...** *This workshop will look at ways to add value to your technologies prior to seeking a corporate partner whether you choose to license the technology or start a company; ideas which members of the panel have found will increase your chances of making a successful transfer. Our panel will cover the topic from the perspective of the licensing office – what can be done even with a limited budget – to the perspective of the potential venture capital investor – what do they like to see.*

Moderator: **Beverley Sheridan**, University Technologies International, Inc.  
 Speakers: **Wayne Embree**, Cascadia Pacific Management, Inc.  
**John P. Molloy**, PARTEQ Innovations

**D2 ... LICENSING – LURES AND PERILS, CAN WE BE INFLUENCED? OR IS IT AN OFFER “I CAN’T REFUSE?” ...** *The panelists will discuss various factors which can bear upon licensing decisions and which may give rise to or be perceived by others to be conflicts of interest or to raise ethical questions. Because of a growing tendency for universities to accept equity positions in licensing arrangements and the potential for conflicts arising from clinical studies, particular attention will be given to aspects of insider trading.*

Moderator: **Howard Bremer**, Wisconsin Alumni Research Foundation  
 Speakers: **Fred H. Reinhart**, Wayne State University  
**Walter J. Skipper**, Quarles & Brady

**D3 ... WORKING WITH LEGAL COUNSEL ...** *As a technology manager, you probably spend a significant portion of your time interacting with legal counsel, be it patent counsel, outside corporate counsel, or lawyers from your institution's General Counsel's Office. Legal Counsel can be the best resource you have, or they can be your worst nightmare. In this workshop we will explore the relationships between the technology manager and legal counsel. We will discuss areas where problems can arise and offer suggestions on how best to manage your relationships with legal counsel to ensure that they are an asset to your professional life.*

Moderator: **Janet E. Reed**, Dann, Dorfman, Herrell & Skillman  
 Speakers: **J. Reid Morgan**, Wake Forest University  
**Julie Watson**

**D4 ... GIFTS: OPPORTUNITY OR THREAT ...** *Your director of development has just called and wants to give you the good news: “BIG COMPANY is interested in donating a set of patents worth millions. They are*

Saturday, February 26 ... cont'd

*getting out of chemistry and getting into biotechnology. What should we do?” Or your director of strategic planning has just called you and wants to give you the good news: “We have decided to change our strategic direction. Apparently you invested in a portfolio of technologies that do not fit our new direction and are not sufficiently developed for the market. I understand that we could get a tax write off this year. What do we do?” This session will provide answers to those questions from the point of view of the university and industry.*

Moderator: **Michael J. Martin**, VTIP, Inc.  
 Speaker: **Jay B. Rappaport**, DuPont

**D5 ... THE ARBITRATION CONTRACT: FACTORS IN ARBITRATION ...** *A brief introduction to and comparison among 20 different ADR processes. Arbitration and mediation and hybrids of them, each in several varieties such as “night baseball”, “Medaloo”, “hi-low arbitration and summary jury trials.” When to convert of an arbitration into a mediation, and vice versa, along the way. A Vocabulary of ADR Procedures, which undertakes to define 20 or so processes and make the more significant comparisons will be presented as a handout.*

Moderator: **Tom Arnold**, Arnold White & Durkee  
 Speaker: **Doak Bishop**, Baker and McKenzie

**D6 ... UNIVERSITY SPINOFFS ...** *Examples of new entrepreneurial formats... what is working, what is not.*

Moderator: **Natalie Dakers**, NeuroMed Technologies, Inc.  
 Speakers: **G. Van Beynum**  
**Rudy Dekeyser**, VIB Institute  
**Phillip Ternouth**

**D7 ... WHAT’S MINE IS MINE, WHAT’S YOURS IS MINE, AND WHAT’S OURS IS MINE: COPING WITH INVENTORSHIP DISPUTES ...** *Inventorship conflicts, including how each inventor will share in the revenues, can become particularly challenging to navigate when there are no legally named inventors (as is the case when unpatented biological materials are licensed) and/or when power relationships (PI/graduate student) are involved. What do you do when the chair of the department says he’s an inventor, and his untenured faculty member says “he’s not – but if you don’t name him as an inventor, my career is ruined”? When blaming the patent attorney, or your distribution office, is not enough, come hear what others have done and add your strategies to the discussion.*

Moderator: **Karen L. Deyerle**, University of Washington  
 Speakers: **Douglas Curry**, ARCH Development Corporation  
**Jeffrey Labovitz**, Harvard Medical School  
**Nicole Leonard**, Duke University

**D8 ... ON-LINE ISSUES ...** *Many of us are already using the Internet to some extent to let prospective licensees know of available technologies for commercialization. This session will present specific strategies for leveraging resources to build creative websites for marketing software and multimedia (check out BYU’s site: [www.creativeworks.byu.edu](http://www.creativeworks.byu.edu)). Next, the*

pros and cons for University use of shrinkwrap, clickwrap, and digital signature agreements as alternatives to traditional inked signature licenses will be presented. Finally there will be a discussion of on-line tools for educating and encouraging faculty and staff to help with the transfer of the work they created. Please come prepared to share what has and hasn't worked for you in your on-line marketing efforts.

Moderator: **Deborah W. Alper**, University of Michigan  
Speakers: **W. Scott Petty**, King & Spaulding  
**Giovanni Tata**, Brigham Young University

**D9 PARTNERSHIP BUILDING** ... An update on industrial programs for working with academia.

Moderator: **Susan Froshauer**, Pfizer, Inc.  
Speakers: **John K. McDonald**, Jones & Askew  
(to be named)

**D10 LIVING WITH THE SHELBY AMENDMENT** ... The Office of Management and Budget (OMB) received over 9,000 comments on its proposed implementing the Shelby Amendment. Obviously, there are a lot of people interested in how it will work. This workshop explores how the Shelby Amendment will impact university technology transfer in areas such as basic research, licensing of technology, patents, interferences and collaborative agreements. The history of the Amendment, OMB's current regulations, the Freedom of Information Act (FOIA), the prospects of court battles over the type of data that must be provided and methods to mitigate the adverse effects will be discussed.

Moderator: **Ronald I. Eisenstein**, Nixon Peabody LLP  
Speaker: **David S. Resnick**, Nixon Peabody LLP

11:00 AM **Golf** ... Arbor Springs Golf Club

12:00 PM - 6:00 PM Sightseeing/Free Afternoon

6:30 PM - 11:00 PM **AUTM Band Party** ... The Annual AUTM Band Party ... complete with dinner, dancing, and entertainment by the AUTM Band.

## Sunday, February 27

9:00 AM - 12:00 PM **AUTM New Board Meeting**

### DEADLINE DATES

Early Registrations due by: 1/17/2000  
Hotel Cutoff Date: 1/23/2000  
Vendor Sign-up Deadline: 1/25/2000  
Cutoff for Main Attendance List: 2/9/2000  
Registration Cancellation Deadline: 2/14/2000  
On-Site Registrations Only After: 2/15/2000

### PRESIDENT

Louis P. Berneman  
Managing Director, Center for  
Technology Transfer  
University of Pennsylvania  
3700 Market Street, Suite 300  
Philadelphia, PA 19104-3147

## AUTM 2000 Annual Meeting

February 24 - 27 • Hyatt Regency Atlanta • Atlanta, Georgia

## Registration Form

### 1. REGISTRATION INFORMATION

Name \_\_\_\_\_  
 First Name for Badge \_\_\_\_\_  
 Organization \_\_\_\_\_  
 Address \_\_\_\_\_  
 City/State/Zip/Postal Code \_\_\_\_\_  
 Phone \_\_\_\_\_ Fax \_\_\_\_\_  
 E-Mail \_\_\_\_\_  
 Accompanying Person's Name(s) for Badge (additional payment required): \_\_\_\_\_

We've made it easy to register ...

 Fax your completed form to 203-847-1304. Our fax line is open 24 hours a day.

 Mail your complete form with payment to:  
 AUTM  
 49 East Avenue  
 Norwalk, CT 06851-3919

Questions: Contact AUTM at:

Ph: 203-845-9015  
 Fx: 203-847-1304  
 autm@ix.netcom.com

New Member? If you are a new member since 3/1/99, check here: ☐

 Special Services: ☐ Please check here if you require special accommodations to fully participate in the AUTM Annual Meeting.

### 2. REGISTRATION CATEGORY

**Pre-registration Policy:** To be considered pre-registered, your registration, change, or replacement must be received at AUTM by January 17, 2000 (for early payment fees) or by February 15, 2000, for the regular registration fee. After this date, all registrations will be processed at the on-site fee. **Cancellation Policy:** Cancellations must be received in writing by February 14, 2000, to qualify for a refund. A \$50 administrative fee will be deducted. Walk-ins and replacements are always welcomed.

Category	Price	Total
Prepaid by January 17, 2000		
<input type="checkbox"/> AUTM Member	\$475	\$ _____
<input type="checkbox"/> Nonmember	\$575	\$ _____

Paid after January 17, 1999		
<input type="checkbox"/> AUTM Member	\$550	\$ _____

Special Needs: \_\_\_\_\_

### 8. NETWORKING FAIR & VENDORS ... If you are planning to reserve a Vendor Booth, or an Exhibit Table for the Networking Fair, please be sure to complete and mail those registration forms to the AUTM Headquarters.

**T**he Hyatt Regency Atlanta is located on Peachtree Street in the heart of downtown Atlanta. The 23-story flagship atrium lobby hotel, which was a "first" in architectural design that revolutionized hotel design worldwide, is the city's premier convention facility, offering shopping in adjoining Peachtree Center, and convenient access to Atlanta Market Center, Georgia World Congress Center, Georgia Dome, Underground Atlanta, and Centennial Olympic Park.

The guest rooms are located in three towers and are equipped with remote control TVs, cable movie channels, in-room pay movies, voice mail, computer hookups, video messages and check-out, electronic door locks, iron and ironing board, AM/FM alarm clock, and hair dryer. Check in time is 3:00 PM and check out time is 12:00 Noon. Reservations must be guaranteed with a major credit card with cancellation at least 72 hours prior to arrival.

**R**ecreational facilities include an outdoor pool and sundeck; an exercise room offering free weights, exercise cycles, steppers and stair climbers. And 15 minutes away there is an 18-hole Bobby Jones Golf Course.

There are several restaurants located in the hotel, including the **Kafe Kobenhavn** for breakfast, lunch, and dinner; **Avanzare** serving Italian food for lunch and dinner; **Polaris Revolving Rooftop Restaurant** serving dinner and offering spectacular views of the city; and in the lobby there is the **Parasol Bar** serving light fare, and **Perks**,

a specialty coffee and gourmet shop, open 24 hours a day for coffee and snacks.

**P**oints of interest near the hotel include Zoo Atlanta, Centennial Olympic Park, Underground Atlanta, Woodruff Arts Center, Martin Luther King Center, Stone Mountain Park, CNN Center, and The Margaret Mitchell House.

Located within the hotel are several shops and many guest services, including a business center, concierge, airline ticket counter, gift shop, laundry/dry cleaning, valet parking, multilingual staff, currency exchange, in-room safe, safe-deposit boxes at the front desk, and soda and ice machines.

**A**ccompanying Persons Payment of the accompanying persons fee entitles that accompanying person to attend the Thursday evening reception and the Saturday Band Party. No badges will be issued to accompanying persons unless the fee has been paid.

**A**irport Transportation includes the Atlanta Airport Shuttle which departs the hotel every half hour at 20 and 50 minutes past from 6:20 AM until 7:20 PM. Shuttle fare is \$10.00 per person.

Taxi fare to and from the airport is \$18.00 for one person, \$10.00 each for two people, and \$8.00 each for a party of three or more.

You can also take the MARTA which connects to Peachtree Center providing quick and easy access directly to the airport and other areas of the city as well as its many

attractions. Tokens may be purchased for \$1.50 at the station.

**T**he Accompanying Person Tour will leave from the hotel on Thursday, February 24, at 10:00 AM and return at 2:30 PM. You will have an opportunity to visit the new **Atlanta History Center Museum**, a new museum which focuses on the history of Atlanta and is one of the largest museums devoted to urban and suburban history in the US.

The group will also tour the **Swan House**, a dream mansion built in 1928 for a prominent Atlanta family, and the **Tullie Smith House** restoration, one of the few extant pre-Civil War Houses in Atlanta. Lunch will be enjoyed at the **Swan Coach House**, once the home of the Swan House owner's horses and carriages and now a wonderful restaurant serving delightful Southern fare.

The cost per person will be \$55.00. Be sure to sign up on the registration form. A minimum of 35 persons is required before this tour can be confirmed.

**G**olf Event: This year the Golf Event will be held at the Arbor Springs Golf Club on Saturday, February 26. Tee-off times will start at 12:00 Noon; you will leave the hotel at 11:00 AM. The cost is \$115.00 per person, which includes green fees, cart, bag handling, prizes, lunches and beverages. Transportation from the hotel will be provided.

Sign up on the attached registration form and be sure to include your handicap or average score.
