U.S. Patent and Trademark Office
Acceptable Identification of Goods and Services Manual

This Manual has been prepared by the U.S. Patent and Trademark Office for use by its trademark examining attorneys. It is reproduced and distributed as a service of The United States Trademark Association.

The document is divided into three parts:

- Part 1 - Identification of Goods (Alphabetical)
- Part 2 - Identification of Goods (Alphabetical by
International Class)
- Part 3 - Identification of Services (Alphabetical)

All entries include both International and U.S. Class designations. The covering memorandum prepared by the PTO which explains how the Manual should be used is reproduced as the first two pages of the Manual.

The PTO has informed USTA that comments on the list and/or suggestions for improvement from the private sector would be welcome. They should be directed to:

MEMORANDUM

DATE: August 18, 1983

TO: Managing Attorneys
Examining Attorneys

VIA: Mark M. Newman, Director
Trademark Examining Operation

FROM: Michael J. Hynak *Michael J. Hynak*
Petitions and Classification Attorney

SUBJECT: Acceptable Identification of Goods/Services

Here it is hot off the press, the acceptable identification of goods/services listing.

This list is divided into two binders. The first binder (black) is the acceptable identification of goods while the second binder (blue) is the acceptable identification of services. The services part is being issued under separate cover.

The goods section of the list is likewise divided into two parts. The first part is an alphabetical list broken down by class; the second part is an alphabetical list of all acceptable identifications.

The alphabetical list is arranged in three columns on each page:

The First Column contains the acceptable item;

The Second Column contains the International Class of the item; and

The Third Column contains the prior U.S. Class of the item.

In order to assist in locating a proper identification, the list has been cross-referenced for your convenience. For example, an applicant is seeking registration for OVENS. If the list were not cross-referenced, the item would not appear on the list, since it is not an acceptable term per se. However, using the cross-reference list and looking

EDUOP TO HOUTAOMIIMJOT

(LADITEGAMJUN)

under "OVEN" you would now find the following three headings: (1) Oven Ventilating Hoods, I.C. 11; (2) Ovens [commercial cooking-], I.C. 11; and (3) Ovens [microwave-], I.C. 7. Items 2 and 3 would also appear under the headings of "commercial cooking ovens" and "microwave ovens." Where wording appears in brackets after an item, the bracketed wording is to appear at the beginning of the identification. See examples 2 and 3 above. The acceptable identification of item 3 would be "microwave ovens" and not "ovens [microwave-]." As you go through the list you will also see parenthesis. The item in the parenthesis will help to explain or give guidance in determining a proper identification. For example, the item "warming pan for bed" is acceptable in Class 21. However, the term "(non-electric)" which appears after the item indicates that in order for this item to fall into Class 21 these goods cannot be electric.

It is important to remember that this list contains only commonly acceptable identification of goods/services and is not meant to be all encompassing. Just because an identification is not listed herein does not mean that it is unacceptable. The purpose of the list is to eliminate signatures for commonly accepted identifications and give guidance in arriving at a proper identification.

The identifications listed in the service mark list are acceptable. However, you must check with a service mark examiner to insure that the particular service fits that particular identification.

It is my intention to update and improve this list. As you go through the list, I am sure you will discover items which need to be changed, added, or deleted. Any changes which you feel are appropriate should be first submitted to your Managing or Lead Attorney who will forward them to me.
