Chapter I
Introduction...

I.1

Introduction to the PCT System

General remarks on the PCT system (1)

1. The PCT system is a patent "filing" system, not a patent "granting" system. There is no "PCT patent".
2. The PCT system provides for an international phase and a national phase.
3. The international phase comprises filing of the international application, international search, international publication and international preliminary examination.
4. The decision on granting patents is taken exclusively by national or regional Offices in the national phase.

World Intellectual Property Organization

General remarks on the PCT system (2)

5. Only inventions may be protected via the PCT by applying for patents, utility models and similar titles.
6. Design and trademark protection cannot be obtained via the PCT. There are separate international conventions dealing with these types of industrial property protection.
7. The PCT is administered by WIPO as are other international conventions in the field of industrial property, such as the Paris Convention.

Relationship between the PCT and ARIPO

1. Designation "AP ARIPO patent" in a PCT application covers the following States:

- Kenya
- Lesotho
- Malawi
- Sudan
- Swaziland
- Uganda

2. For the other States, listed below, which are party to the Harare Protocol but not to the PCT, no patent protection can be obtained via the PCT, and therefore they cannot be designated in a PCT application for the purposes of regional (AP) protection or even national protection, until these States join the PCT:

- Botswana
- Gambia
- Ghana
- Zambia
- Zimbabwe

EURASIAN PATENT
CONVENTION

Republic of Moldova

The Republic of Moldova deposited its instrument of ratification of the Eurasian Patent Convention on 16 November 1995 and will become bound by that Convention on 16 February 1996 (for further details on the possibility of designating the Republic of Moldova for a Eurasian patent in a PCT application, as of 16 February 1996, see *PCT Newsletter* No. 11/1995, cover page).

EXTENSION OF EUROPEAN
PATENTS TO ALBANIA

An agreement between the European Patent Organisation and Albania on the extension of the effects of European patent applications and patents to Albania entered into force on 3 November 1995. Under that agreement, it is possible to obtain patent protection in Albania by requesting the extension of a European patent to that State. The extension procedure is also available, if the necessary requirements are met, via the PCT. The agreement with Albania is similar to those which entered into force on 1 March 1994 in respect of Slovenia, on 5 July 1994 in respect of Lithuania and on

1 May 1995 in respect of Latvia (see *PCT Newsletter* Nos. 01/1994, 04/1994, 05/1994 and 05/1995).

Note that Albania (country code: AL) is not party to the European Patent Convention (EPC) and cannot itself be designated for a European patent (EP). If protec-
