

The War Relocation Authority in the Office for Emergency Management of the Executive Office of the President and its functions, together with its records, property personnel, and unexpended balances of appropriations, allocations, and other funds, are transferred to the Department of the Interior and shall be administered as an organizational entity within the said Department. The functions of the Director of the War Relocation Authority are transferred to the Secretary of the Interior. The War Relocation Authority and the functions transferred by this order shall be administered by the said Secretary or under his supervision and direction through such officers, agents, and employees, of the War Relocation Authority, as he shall designate. All prior Executive orders in conflict with this order are amended accordingly. This order shall take effect immediately.

EXECUTIVE ORDER 9424

ESTABLISHING IN THE UNITED STATES PATENT OFFICE A REGISTER OF GOVERNMENT INTERESTS IN PATENTS AND APPLICATIONS FOR PATENTS

WHEREAS there exists among the several executive departments and agencies a need for a more adequate source of information with respect to patent rights and interests owned or controlled by the United States Government; and

WHEREAS the establishment in the United States Patent Office, Department of Commerce, of a separate register for the recording of such patent rights and interests would meet this need and would be in the public interest:

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States, it is ordered as follows:

1. The Secretary of Commerce shall cause to be established in the United States Patent Office a separate register for the recording of all rights and interests of the Government in or under patents and applications for patents.

2. The several departments and other executive agencies of the Government, including Government-owned or Government-controlled corporations, shall forward promptly to the Commissioner of Patents for recording in the separate

register provided for in paragraph 1 hereof all licenses, assignments, or other interests of the Government in or under patents or applications for patents, in accordance with such rules and regulations as may be prescribed pursuant to paragraph 4 hereof; but the lack of recordation in such register of any right or interest of the Government in or under any patent or application therefor shall not prejudice in any way the assertion of such right or interest by the Government.

3. The register shall be open to inspection except as to such entries or documents which, in the opinion of the department or agency submitting them for recording, should be maintained in secrecy: *Provided, however,* That the right of inspection may be restricted to authorized representatives of the Government pending the final report to the President by the National Patent Planning Commission under Executive Order No. 8977 of December 12, 1941,¹ and action thereon by the President.

4. The Commissioner of Patents, with the approval of the Secretary of Commerce, shall prescribe such rules and regulations as he may deem necessary to effectuate the purposes of this order.

EXECUTIVE ORDER 9863

DESIGNATING PUBLIC INTERNATIONAL ORGANIZATIONS ENTITLED TO ENJOY CERTAIN PRIVILEGES, EXEMPTIONS, AND IMMUNITIES¹

By virtue of the authority vested in me by section 1 of the International Organizations Immunities Act, approved December 29, 1945 (59 Stat. 669), and having found that the United States participates in the following-named international organizations pursuant to a treaty or under the authority of an act of Congress authorizing such participation or making an appropriation therefor, I hereby designate such organizations as public international organizations entitled to enjoy the privileges, exemptions, and immunities conferred by the said Act:

1. United Nations Educational, Scientific, and Cultural Organization
2. International Civil Aviation Organization
3. International Telecommunication Union

The designation of the above-named organizations as public international organizations within the meaning of the said International Organizations Immunities Act is not intended to abridge in any respect privileges and immunities which such organizations may have acquired or may acquire by treaty or Congressional action.

This order supplements Executive Orders No. 9698 of February 19, 1946, No. 9751 of July 11, 1946,² and No. 9823 of January 24, 1947.³

tries Devastated by War," hereinafter referred to as the joint resolution, and section 202 of the Revised Statutes, and as President of the United States, I hereby prescribe the following regulations for carrying out the provisions of the joint resolution:

1. The Secretary of State is hereby authorized:

(a) To exercise the authority vested in the President by sections 2, 3, and 4 of the joint resolution, except with respect to the appointment of the field administrator pursuant to section 4.

(b) To take such other action, not inconsistent with the authority reserved to the President, as may be necessary for providing relief assistance in accordance with the terms of the joint resolution, including the making of such arrangements with the heads of other Executive departments, agencies, and independent establishments of the Government as may be necessary and proper for carrying out the provisions of the joint resolution.

(c) To exercise the authority vested in him by this order directly or through the field administrator appointed pursuant to section 4 of the joint resolution or through such officers and employees of the Department of State, including those of the Foreign Service, as he may designate to act on his behalf.

2. The field administrator shall act under the guidance and in accordance with the instructions of the Secretary of State.

EXECUTIVE ORDER 9865

PROVIDING FOR THE PROTECTION ABROAD OF INVENTIONS RESULTING FROM RESEARCH FINANCED BY THE GOVERNMENT

WHEREAS the Government of the United States now has and will hereafter acquire title to, or the right to file foreign patent applications for, numerous inventions arising out of scientific and technical research carried on by or for the Government; and

WHEREAS it is in the interest of the United States to acquire patent protection abroad on certain inventions resulting from government-financed research; and

WHEREAS it is in the interest of the Government to foster, promote, and de-

velop the foreign commerce of the United States:

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States by the Constitution and statutes, and as Commander in Chief of the Army and Navy, and in the interest of the foreign affairs functions of the United States and the internal management of the Government, it is hereby ordered as follows:

1. All Government departments and agencies shall, whenever practicable, acquire the right to file foreign patent applications on inventions resulting from research conducted or financed by the Government.

2. All Government departments and agencies which have or may hereafter acquire title to inventions or the right to file patent applications abroad thereon, shall fully and continuously inform the Department of Commerce concerning such inventions, except as provided in section 6 hereof, and shall make recommendations to the Department of Commerce as to which of such inventions should receive patent protection by the United States abroad and the foreign jurisdictions in which such patent protection should be sought. The recommendations of such departments and agencies shall indicate the immediate or future industrial, commercial or other value of the invention concerned, including its value to public health.

3. The Department of Commerce shall determine whether, and in what foreign jurisdictions, the United States should seek patents for such inventions and, to the extent of appropriations available therefor, shall procure patent protection for such inventions, taking all action, consistent with existing law, necessary to acquire and maintain patent rights abroad. Such determinations of the said Department shall be made after full consultation with United States industry and commerce, with the Department of State, and with other Government agencies familiar with the technical, scientific, industrial, commercial or other economic or social factors affecting the invention involved, and after consideration of the availability of valid patent protection in the countries determined to be immediate or potential markets for, or producers of, products, processes, or services covered by or relating to the invention.

4. The Department of Commerce shall administer foreign patents acquired by the United States under the terms of this order and shall issue licenses thereunder in accordance with law under such rules and regulations as the Secretary of Commerce shall prescribe. Nationals of the United States shall be granted licenses on a nonexclusive royalty free basis except in such cases as the Secretary shall determine and proclaim it to be inconsistent with the public interest to issue such licenses on a nonexclusive royalty free basis.

5. The Department of State, in consultation with the Department of Commerce, shall negotiate arrangements among governments under which each government and its nationals shall have access to the foreign patents of the other participating governments. Patents relating to matters of public health may be licensed by the Secretary of Commerce, with the approval of the Secretary of State, to any country or its nationals upon such terms and conditions as are in accordance with law and as the Secretary of Commerce determines to be appropriate, regardless of whether such country is a party to the arrangements provided for in this section.

6. There shall be exempted from the provisions of this order (a) all inventions within the jurisdiction of the Atomic Energy Commission except in such cases as the said Commission specifically authorizes the inclusion of an invention under the terms of this order; and (b) all other inventions officially classified as secret or confidential for reasons of the national security. Nothing in this order shall supersede the declassification policies and procedures established by Executive Orders Nos. 9568 of June 8, 1945, 9604 of August 25, 1945,¹ and 9809 of December 12, 1946.²

EXECUTIVE ORDER 10096

PROVIDING FOR A UNIFORM PATENT POLICY FOR THE GOVERNMENT WITH RESPECT TO INVENTIONS MADE BY GOVERNMENT EMPLOYEES AND FOR THE ADMINISTRATION OF SUCH POLICY

WHEREAS inventive advances in scientific and technological fields frequently result from governmental activities carried on by Government employees; and

WHEREAS the Government of the United States is expending large sums of money annually for the conduct of these activities; and

WHEREAS these advances constitute a vast national resource; and

WHEREAS it is fitting and proper that the inventive product of functions of the Government, carried out by Government employees, should be available to the Government; and

WHEREAS the rights of Government employees in their inventions should be recognized in appropriate instances; and

WHEREAS the carrying out of the policy of this order requires appropriate administrative arrangements;

NOW, THEREFORE, by virtue of the authority vested in me by the Constitution and statutes, and as President of the United States and Commander in Chief of the armed forces of the United States, in the interest of the establishment and operation of a uniform patent policy for the Government with respect to inventions made by Government employees, it is hereby ordered as follows:

1. The following basic policy is established for all Government agencies with respect to inventions hereafter made by any Government employee:

(a) The Government shall obtain the entire right, title and interest in and to all inventions made by any Government employee (1) during working hours, or (2) with a contribution by the Government of facilities, equipment, materials, funds, or information, or of time or services of other Government employees on official duty, or (3) which bear a direct relation to or are made in consequence of the official duties of the inventor.

(b) In any case where the contribution of the Government, as measured by any one or more of the criteria set forth in paragraph (a) last above, to the invention is insufficient equitably to justify a requirement of assignment to the Gov-

ernment of the entire right, title and interest to such invention, or in any case where the Government has insufficient interest in an invention to obtain entire right, title and interest therein (although the Government could obtain some under paragraph (a), above), the Government agency concerned, subject to the approval of the Chairman of the Government Patents Board (provided for in paragraph 3 of this order and hereinafter referred to as the Chairman), shall leave title to such invention in the employee, subject, however, to the reservation to the Government of a non-exclusive, irrevocable, royalty-free license in the invention with power to grant licenses for all governmental purposes, such reservation, in the terms thereof, to appear, where practicable, in any patent, domestic or foreign, which may issue on such invention.

(c) In applying the provisions of paragraphs (a) and (b), above, to the facts and circumstances relating to the making of any particular invention, it shall be presumed that an invention made by an employee who is employed or assigned (i) to invent or improve or perfect any art, machine, manufacture, or composition of matter, (ii) to conduct or perform research, development work, or both, (iii) to supervise, direct, coordinate, or review Government financed or conducted research, development work, or both, or (iv) to act in a liaison capacity among governmental or nongovernmental agencies or individuals engaged in such work, or made by an employee included within any other category of employees specified by regulations issued pursuant to section 4 (b) hereof, falls within the provisions of paragraph (a), above, and it shall be presumed that any invention made by any other employee falls within the provisions of paragraph (b), above. Either presumption may be rebutted by the facts or circumstances attendant upon the conditions under which any particular invention is made and, notwithstanding the foregoing, shall not preclude a determination that the invention falls within the provisions of paragraph (d) next below.

(d) In any case wherein the Government neither (1) pursuant to the provisions of paragraph (a) above, obtains entire right, title and interest in and to an invention nor (2) pursuant to the provisions of paragraph (b) above, reserves a non-exclusive, irrevocable, royalty-free license in the invention with

power to grant licenses for all governmental purposes, the Government shall leave the entire right, title and interest in and to the invention in the Government employee, subject to law.

(e) Actions taken, and rights acquired, under the foregoing provisions of this section, shall be reported to the Chairman in accordance with procedures established by him.

2. Subject to considerations of national security, or public health, safety, or welfare, the following basic policy is established for the collection, and dissemination to the public, of information concerning inventions resulting from Government research and development activities:

(a) When an invention is made under circumstances defined in paragraph 1 (a) of this order giving the United States the right to title thereto, the Government agency concerned shall either prepare and file an application for patent therefor in the United States Patent Office or make a full disclosure of the invention promptly to the Chairman, who may, if he determines the Government interest so requires, cause application for patent to be filed or cause the invention to be fully disclosed by publication thereof: *Provided, however,* That, consistent with present practice of the Department of Agriculture, no application for patent shall, without the approval of the Secretary of Agriculture, be filed in respect of any variety of plant invented by any employee of that Department.

(b) Under arrangements made and policies adopted by the Chairman, all inventions or rights therein, including licenses, owned or controlled by the United States or any Government agency shall be indexed, and copies, summaries, analyses and abstracts thereof shall be maintained and made available to all Government agencies and to public libraries, universities, trade associations, scientists and scientific groups, industrial and commercial organizations, and all other interested groups of persons.

3. (a) A Government Patents Board is established consisting of a Chairman of the Government Patents Board, who shall be appointed by the President, and of one representative from each of the following:

Department of Agriculture
 Department of Commerce
 Department of the Interior
 Department of Justice
 Department of State

Department of Defense
 Civil Service Commission
 Federal Security Agency
 National Advisory Committee for Aeronautics

General Services Administration

Each such representative, together with an alternate, shall be designated by the head of the agency concerned.

(b) The Government Patents Board shall advise and confer with the Chairman concerning the operation of those aspects of the Government's patent policy which are affected by the provisions of this order or of Executive Order No. 9865, and suggest modifications or improvements where necessary.

(c) Consonant with law, the agencies referred to in paragraph 3 (a) hereof shall as may be necessary for the purpose of effectuating this order furnish assistance to the Board in accordance with section 214 of the Independent Offices Appropriation Act, 1946, 59 Stat. 134, 31 U. S. C. 691. The Department of Commerce shall provide necessary office accommodations and facilities for the use of the Board and the Chairman.

(d) The Chairman shall establish such committees and other working groups as may be required to advise or assist him in the performance of any of his functions.

(e) The Chairman of the Government Patents Board and the Chairman of the Interdepartmental Committee on Scientific Research and Development (provided for by Executive Order No. 9912 of December 24, 1947)¹ shall establish and maintain such mutual consultation as will effect the proper coordination of affairs of common concern.

4. With a view to obtaining uniform application of the policies set out in this order and uniform operations thereunder, the Chairman is authorized and directed:

(a) To consult and advise with Government agencies concerning the application and operation of the policies outlined herein;

(b) After consultation with the Government Patents Board, to formulate and submit to the President for approval such proposed rules and regulations as may be necessary or desirable to implement and effectuate the aforesaid policies, together with the recommendations of the Government Patents Board thereon;

(c) To submit annually a report to the President concerning the operation of such policies, and from time to time such

recommendations for modification thereof as may be deemed desirable;

(d) To determine with finality any controversies or disputes between any Government agency and its employees, to the extent submitted by any party to the dispute, concerning the ownership of inventions made by such employees or rights therein; and

(e) To perform such other or further functions or duties as may from time to time be prescribed by the President or by statute.

5. The functions and duties of the Secretary of Commerce and the Department of Commerce under the provisions of Executive Order No. 9865 of June 14, 1947¹ are hereby transferred to the Chairman and the whole or any part of such functions and duties may be delegated by him to any Government agency or officer. *Provided*, That said Executive Order No. 9865 shall not be deemed to be amended or affected by any provision of this Executive order other than this paragraph 5.

6. Each Government agency shall take all steps appropriate to effectuate this order, including the promulgation of necessary regulations which shall not be inconsistent with this order or with regulations issued pursuant to paragraph 4 (b) hereof.

7. As used in this Executive order, the next stated terms, in singular and plural, are defined as follows for the purposes hereof:

(a) "Government agency" includes any executive department and any independent commission, board, office, agency, authority, or other establishment of the Executive Branch of the Government of the United States (including any such independent regulatory commission or board, any such wholly-owned corporation, and the Smithsonian Institution), but excludes the Atomic Energy Commission.

(b) "Government employee" includes any officer or employee, civilian or military, of any Government agency, except such part-time consultants or employees as may be excluded by regulations promulgated pursuant to paragraph 4 (b) hereof.

(c) "Invention" includes any art, machine, manufacture, design or composition of matter, or any new and useful

improvement thereof, or any variety of plant, which is or may be patentable under the patent laws of the United States.

² 3 CFR, 1949 Supp.

under the heading "Emergency Fund for the President—National Defense" in Title I of the General Government Matters Appropriation Act, 1961, 74 Stat. 473, 475, approved July 12, 1960. The expenditures of the commission may be paid out of an allotment made by the President from the appropriation made under the aforesaid heading "Emergency Fund for the President—National Defense"; and, to the extent permitted by law, from any corresponding or like appropriation made available for fiscal years subsequent to fiscal year 1961. Such payments may be made without regard to the provisions of (a) section 3681 of the Revised Statutes (31 U.S.C. 672), (b) section 9 of the Act of March 4, 1909, 35 Stat. 1027 (31 U.S.C. 673), and (c) such other provisions of law as the President may hereafter specify. The members of the commission shall receive such expense allowances as the President shall hereafter fix. The chairman of the commission and those other members of the commission who are designated by the President under section 1 without nominations shall receive such compensation as the President shall hereafter specify, but no such compensation shall be payable with respect to any day or other period of service for which other compensation is payable by the United States.

Sec. 6. The commission shall make a final written report of its findings and recommendations not later than 60 days after the Presidential commission established by Executive Order No. 10891 makes the final report described in section 5 of such order. The commission shall cease to exist 30 days after the rendition of its final report to the President.

Sec. 7. Funds may be allotted under section 5 of this order immediately, such funds to become available for obligation and expenditure on such date or dates as the President may specify, and nominations may immediately be submitted and designations of members made under section 1 of this order, but the provisions of this order shall otherwise become effective only when all members of the commission have been designated by the President under section 1 hereof.

ABOLISHING THE GOVERNMENT PATENTS BOARD AND PROVIDING FOR THE PERFORMANCE OF ITS FUNCTIONS

By virtue of the authority vested in me as President of the United States, it is ordered as follows:

SECTION 1. The Government Patents Board, established by section 3(a) of Executive Order No. 10096¹ of January 23, 1950, and all positions established thereunder or pursuant thereto are hereby abolished.

Sec. 2. All functions of the Government Patents Board and of the Chairman thereof under the said Executive Order No. 10096, except the functions of conference and consultation between the Board and the Chairman, are hereby transferred to the Secretary of Commerce, who may provide for the performance of such transferred functions by such officer, employee, or agency of the Department of Commerce as he may designate.

Sec. 3. The Secretary of Commerce shall make such provision as may be necessary and consonant with law for the disposition or transfer of property, personnel, records, and funds of the Government Patents Board.

Sec. 4. Except to the extent that they may be inconsistent with this order, all determinations, regulations, rules, rulings, orders, and other actions made or issued by the Government Patents Board, or by any Government agency with respect to any function transferred by this order, shall continue in full force and effect until amended, modified, or revoked by appropriate authority.

Sec. 5. Subsections (a) and (c) of section 3 of Executive Order No. 10096 are hereby revoked, and all other provisions of that order are hereby amended to the extent that they are inconsistent with the provisions of this order.
