PARTNERMART

Partnering in the Information Age
Promoting Applications, Cooperation and Growth

SEPTEMBER 29 & 30, 1994
AUSTIN CONVENTION CENTER AUSTIN, TEXAS

- 
- Identify Potential Business Partnerships
 - Explore Joint Business Investment and Licensing Opportunities
 - Match Your Business Opportunities with the Needs of Another Business
 - Present Your Company's Partnering Opportunities in a 20-Minute Talk or an Exhibition Booth

MORE THAN A
CONFERENCE
MORE THAN A
TRADE SHOW

**FULL DAYS OF
BUSINESS OPPORTUNITIES**

The Second Annual PartnerMart brings together organizations to explore business growth and partnering opportunities resulting from the emerging information superhighway. Yet PartnerMart '94 is more than just another conference on the national information infrastructure (NII). The NII requires new ways of doing business and provides an entirely new set of business opportunities in every sector of the economy. PartnerMart '94 provides an environment for organizations to explore new ways of creating partnerships or 'virtual companies' with potential business partners who want to exploit the early opportunities of the NII.

PARTNERMART FORMAT

Demonstrations, exhibits, panel and group discussions, presentations, workshops, and one-on-one meetings will provide organizations a chance to match business opportunities with business needs among a broad group of Fortune 500, mid-sized and small companies; government agencies; universities and foreign

PARTNERMART BENEFITS

- Offers a cost-effective way to identify, screen and develop qualified, potential business partners
- Provides information on corporate coalitions, best practices, strategic alliances, joint ventures, and consortial collaborations
- Provides insight from leading industry experts into successful teaming agreements as well as the pitfalls
- Allows for sensitive issues to be discussed in a prearranged, private environment
- Offers a 20-minute time slot and exhibition space to present your business growth or partnering opportunities

firms. Breakout groups organized by industry (such as computer, healthcare, insurance, retail, entertainment, environment, manufacturing, energy, and finance) will provide settings conducive to problem solving through cooperation.

In the 1990s, partnering is global. MCC's International Liaison Office (ILO), which tracks developments and identifies emerging mar-

ket opportunities in microelectronics and information technologies abroad, is inviting European and Asian firms to participate in PartnerMart '94, and ILO's research analysts will also be available to consult with attendees on possibilities for partnering overseas.

Track IV of the PartnerMart program will feature workshops and presentations on such topics as the formation of international joint ventures, identifying foreign partners for strategic alliances, and conducting joint R & D projects abroad.

WHO SHOULD ATTEND

- Large organizations seeking small enterprises that can move products quickly into new markets
- High technology firms seeking allies with complementary core competencies to develop new products
- Large companies that want to license technologies

- Large companies, small businesses, or universities seeking partners to jointly bid for federal or state contracts or grants
- Defense companies searching for commercial product conversion opportunities
- National laboratories and universities looking for technology transfer opportunities
- Traditional businesses looking for ways to enhance productivity by using the information superhighway
- Venture capitalists seeking new potential investments
- U.S. and foreign firms seeking international alliances and marketing arrangements

HOW YOU CAN PARTICIPATE IN PARTNERMART

- Be a Technology or Business Opportunity Presenter by giving a 20-minute presentation on your business or growth partnering opportunity to Fortune 500, mid-sized and small companies; government agencies; universities and foreign firms.
- Reserve exhibit space to demonstrate technologies and capabilities.
- Attend presentations, breakout sessions, workshops, and the exhibit hall.
- Set private appointments from a custom, pre-matched list of PartnerMart participants that meet your criteria for potential business opportunities.
- Use our complimentary meeting space for special meetings.
- Consult with MCC's International Liaison Office on international partnering opportunities and strategies.
- Meet with industry experts and establish new business contacts.

MCC is inviting all interested PartnerMart participants to submit a proposal to actively participate through an exhibit and/or a 20-minute presentation. To maintain the integrity of the program's focus, we cannot accept proposals for straight marketing or advertising of ready-for-market products and services—i.e. the standard tradeshow format. Just fax back the Registration Form, and you will receive some easy-to-fill-out forms to submit your proposal/s.

PRELIMINARY PARTNERMART AGENDA

	DAY ONE THURSDAY, SEPTEMBER 29	DAY TWO FRIDAY, SEPTEMBER 30
Plenary	Featured Speakers Vice President Al Gore (Invited)	Featured Speakers
Exhibition	Open in the Afternoon Company booths, demonstrations, poster shows, literature tables and networking meetings	Open through Mid-Afternoon Company booths, demonstrations, poster shows, literature tables and networking meetings
TRACK 1 Business Opportunities	Technology Presentations (20-minute presentations by companies with licensing opportunities and technologies seeking investors and partners)	Business Presentations (20-minute presentations by businesses, investors and technology seekers)
TRACK 2 Partnering and Consortial Assistance	Panel: Overview of consortia structures: Presented by the Council of Consortia Breakout Sessions: Ad hoc consortia, government policy (relating to TRP and ATP), best practices, major forces in consortia	Breakout Sessions (Continued)
TRACK 3 Partnering and Venture Resources	Panel: Partnering Services and Assistance; TINS, TCN, FedWorld, NTTC, Government SBIR & TRP Breakout Sessions	Workshops: e.g. legal issues, contract writing, government bidding, business on the Internet (Breakout Sessions Cont'd)
TRACK 4 International Partnering Opportunities	Panels Breakout Sessions MCC International Liaison Office Consultations	International Partnering Opportunities Breakout Sessions MCC International Liaison Office Consultations

Note: Some sessions will repeat so you will have the opportunity to attend most presentations and panels

WHAT IS PARTNERING?

Partnering, which can include exchange of best practices, strategic alliances, joint ventures, corporate coalitions, or collaborations, has become an essential business strategy for the '90s. Consider the possibilities:

EXAMPLE *Fill Out Core Competencies*

Through its just-installed, computer network connection, Bob's Printed Circuit Board Shop has been asked to submit a bid to be the top tier supplier of microprocessor cache units for Moon Microsystems of Cloudyvale, CA. The contract calls for the production of 10,000 microprocessor cache units per month and a prototype of the same unit as a multichip module (MCM). Bob has reservations: he has no experience with MCMs and his production facility would have to be expanded. Bob has already made plans to attend PartnerMart. So he makes a presentation on his PCB technology—meeting several prospective clients—and finds an organization that can prototype the MCM required by Moon Microsystems. He also meets several venture capitalists interested in helping him expand his business. PartnerMart has helped Bob fill out his business' core competency, expand his customer base, and find investors.

EXAMPLE *Joint Bidding for Government Contracts*

Tanks 'R Us Defense Company is interested in submitting a proposal to the federal Technology Reinvestment Program (TRP) for a solvent recycling

project that its researchers have been studying. The program manager attends PartnerMart and makes a presentation on the company's preliminary proposal and is approached by Swell Computer, a small PC maker; a university researcher working on a similar project; and Cars Inc., an auto manufacturer. The four are able to form an alliance to submit a TRP proposal, winning a \$2 million award to pursue the solvent recycling project.

TRAVEL SAVINGS

We have negotiated generous savings on travel and lodging that will make your trip easy and affordable!

EXAMPLE *Technology Transfer Opportunities*

Professor Thinksbig and his graduate students in the computer science department at the local university have spent several years researching a new way to access databases on the Internet. The professor has made plans to attend PartnerMart because he thinks his method can be developed as a commercial product. After his presentation, a representative of Locust Software Company seeks him out and tells him his company is looking to commercialize a software package that will let its users easily access other databases via the Internet. Locust has been working on a similar research project, but Professor Thinksbig's approach is unique. The university is able to reach an agreement with Locust to license its technology, putting Professor Thinksbig's research to work.

“MCC's mission is of particular interest as it can expand our industry 'network.' The PartnerMart was very impressive as were the many presentations we participated in last week.”

Charlotte, NC
Attended 1993 PartnerMart

1993 ATTENDEES AND EXHIBITORS

Last year's PartnerMart drew 512 individuals from 188 organizations. The exhibitors displayed licensable technologies, investigated requests for research partners, and pursued joint venture opportunities. This year's event will be even broader in scope, drawing from industries such as healthcare, manufacturing, electronics and telecommunications. The emphasis is on maximum interaction among organizations to explore partnering opportunities.

“Congratulations!

Several of our employees reported the PartnerMart was a tremendous success. We are very excited by the industry contacts resulting from this forum and are optimistic that some of the contacts will grow to be partnerships. We encourage you to continue this worthwhile activity.”

1994 MCC PARTNERMART SEPTEMBER 29 & 30, 1994

Conference Location

Austin Convention Center

Located in the heart of downtown's business district, the Austin Convention Center covers four city blocks and offers state of the art services such as access to the Internet in the exhibition halls. Nearby, the historic Sixth Street Entertainment District promises world-class live music; and seven stunning Hill Country lakes encourage visitors to include time for fun.

We have negotiated generous savings on travel and lodging that will make your trip easy and affordable!

Travel Information

Money in your pocket! MCC has arranged travel discounts with American Express Group Travel. You can get additional discounts on airfares to Austin by booking your reservation through their toll free number: 800-848-5010. Not only do you save money, but you have the assurance of a 24-hour hot line for travel emergencies. All applicable rules and restrictions apply. Be sure to refer to the MCC PartnerMart event to receive the discounts.

Host Hotel – Sheraton Austin

MCC has a room block at the Sheraton Austin. The Sheraton is located 15 minutes from the airport near Austin's historic Sixth Street entertainment district, the State Capital, and the Austin Convention Center. Special rates for PartnerMart attendees are \$108/night for single or double occupancy. The Sheraton has an outdoor swimming pool, whirlpool, and recreational facilities.

Hotel Reservations

To make reservations, please call the Sheraton Austin reservation office at 512-480-8181 and ask for the MCC PartnerMart room block. The special rates will only be available until August 27, 1994. To ensure your accommodations, please make your reservation now. There is no cancellation fee if you cancel prior to 6 p.m. on the day of your arrival

Meals

MCC will provide two complimentary luncheons at the Austin Convention Center, and a complimentary reception Thursday evening, September 29 at the Sheraton Austin.

Cancellations and Substitutions

Cancellations received prior to September 9, 1994 will be refunded at 50% of the registration fee. Cancellations received after September 9, 1994 will NOT be refunded. All cancellations must be received in writing.

Transportation

Car rental is available at the airport. The driving time from the airport to the hotel and the Convention Center is about 15 minutes. Taxicab fare is about \$10.

EXHIBITORS' INFORMATION

Specific information regarding booth registration and set up will be sent to you in the Participant's Kit.

Registration for a booth includes:

- Exhibit floor space
- 10' x 10' pipe-and-curtain booth
- Booth identification sign (ID sign)

Note:

- Exhibit set up is September 28, the PartnerMart Exhibition is September 29 & 30

FAX BACK THIS REGISTRATION FORM TODAY: (512)338-3336

Space is at a premium. Make your reservations now! Early Bird Registration through August 15

PartnerMart Information and Registration Materials are Available via Internet at partner@mcc.com or call the event Hot Line at (512)338-3272.

Please use one form per attendee or participant. Please type or print.

Yes, I will attend.

Yes, I want to participate in PartnerMart '94 in the following ways:

- Give a 20-minute technology/business presentation – Presentation submission deadline September 9, 1994
- Reserve an Exhibit Booth (stand-alone demo, video, poster session, or literature table)

After you register, you will receive your Participation Packet which will include:

- A Partnering Profile form which will be used to match your company's opportunities with other submissions
- A presentation description form in which you will describe the objectives and key points of your 20-minute talk
- Detailed information regarding the exhibition booths, final agenda and local logistics

I will attend the Reception on September 29 at the Sheraton I have special dietary considerations as follows: _____

I have made a hotel reservation at _____

The graphic for 'Partner Mart' features a stylized city skyline in the background. The skyline consists of several buildings of varying heights and widths, rendered in a dark, textured style. The words 'PARTNER MART' are superimposed over the skyline in a large, bold, black, sans-serif font. The word 'PARTNER' is on the left, 'MART' is on the right, and 'PARTNER' is repeated in the middle, creating a central focus. Above the main title, the words 'MCC PRESENTS' are written in a smaller, spaced-out, sans-serif font.
