

SUPREME COURT DECISION ON GENETIC ENGINEERING CAUSES PATENT OFFICE BOOM

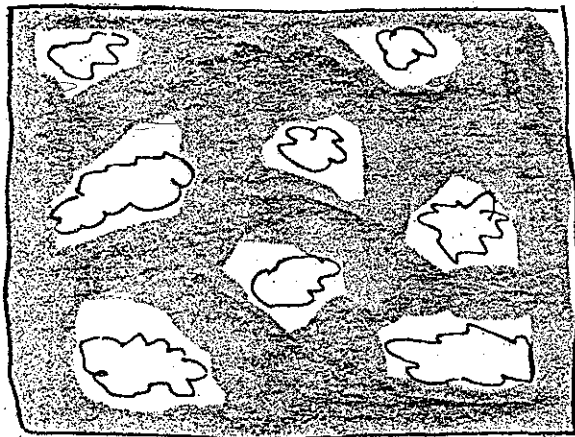

Pat. 310,437,188

Breaks down components of Supreme Court decisions and turns them into usable crude oil.

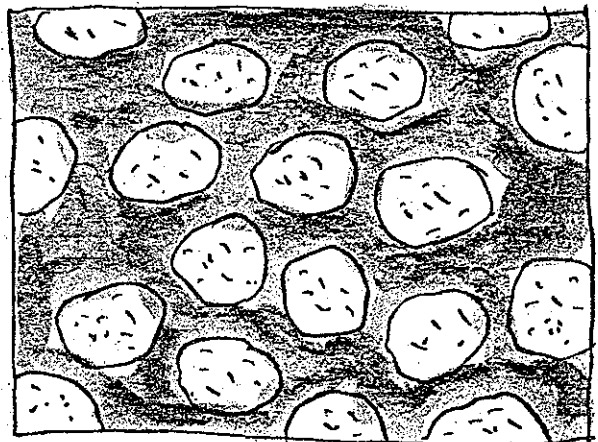

Pat. 530,662,718

After "digesting" an oil spill, it "returns" the oil to its original owner.

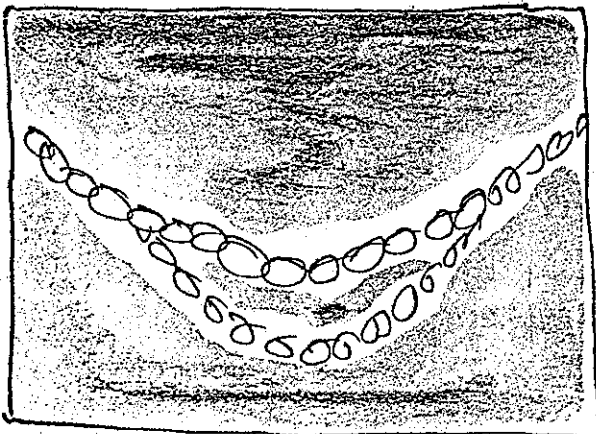

Pat. 740,039,251

By crossbreeding and fusing several strains of bacteria, it converts polyester into prune yogurt.

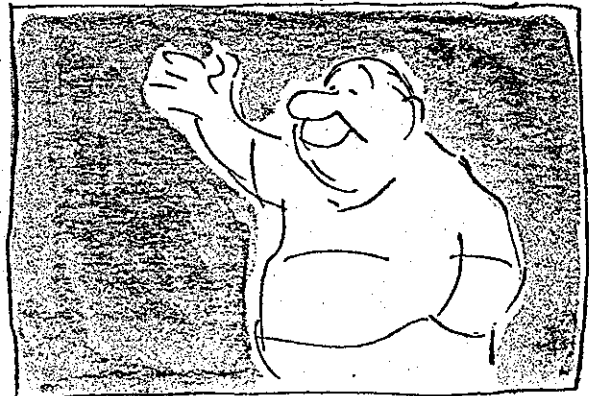

Pat. 105,192,270

Blends ethylene glycol and fructose to make high-speed burgers.

Pat. 624,471,927

Splices genes into designer jewelry of your choice.

Pat. Pending

Charles (Chuck) Cavetti, 65, generally regarded as one of the all-time really great guys, and a lot of fun, received a patent-pending status until it is determined what it is precisely that makes him so terrific.

—JAMES STEVENSON
