

September 25, 1964

Professor William H. Young
Budget Director
The University of Wisconsin
20 Bascom Hall
Madison 6, Wisconsin

Dear Bill:

During our last meeting we raised the question of checking out, from an account standpoint, the invention of Maloney and Davis. The full names of these inventors are John T. Maloney and John R. Davis, and both gentlemen are employed in the Agronomy Department. Their invention relates to a small article (such as seed) counter.

Very truly yours,

Howard W. Bremer
Patent Counsel

HWB:rv

P.S. A copy of the disclosure is attached.

H.W.B.
