Dear Mr. Woodrow:

I found your presentation on patents and copyrights at the recent NCURA District II meeting very helpful and enlightening.

Canisius College is in the process of adopting a patent and copyright policy. With a primarily teaching faculty, we do not have need of an elaborate statement, yet we feel the need to adopt a general guideline.

I wondered if you were familiar with any pamphlets or books which could assist us in drafting a policy. If you are familiar with any recent collections of university patent policies, these would be of particular interest.

Thank you for any assistance.

Sincerely,

Ann Burke Schott
Grant Services Officer
