Dear Howard:

I returned to campus today from the SUPA meeting and found a copy of the enclosed letter in my mail.

Don Langenberg is, among other duties, the Chairman of the NSF Advisory Council and I had passed on to him a copy of Mr. Olson's letter with the suggestion that his proposal was a most interesting one. Obviously Don was in agreement.

*in SUPA file*

If we can provide any further support in this matter, please let me know.

Sincerely,

  
Anthony Merritt  
Director
