Mr. Norman J. Latker  
Chief, Patent Branch  
Department of Health, Education, & Welfare  
Washington, D.C. 20201

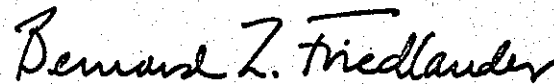

Dear Mr. Latker:

This letter calls your attention to a minor error of fact in a report sent to you with a covering letter on February 9, 1970, from Mr. Robert E. Gentry, Assistant Vice President for Business & Finance, University of Wisconsin. The report was a University of Wisconsin Invention Record and Report dated January 14, 1970, describing a Time-Sampling Tape Recorder System developed as part of my project # C-278 funded formerly by the Children's Bureau, now under the jurisdiction of the Maternal & Child Health program of the Health Services and Mental Health Administration, P.H.S.

In item 3 of that report the following statement appears:  
The total DHEW support for this project during Year 2 was \$188,986.  
This sentence should have read: The total DHEW support for this project during Years 1 and 2 was \$188,986.

I will appreciate it if you would make this minor correction a part of the record of this invention report. The error was created inadvertently in my office and is not due to any slip-up by the University of Wisconsin administrative offices.

Yours truly,

Bernard Z. Friedlander, Ph.D.  
Research Psychologist
