

THE UNIVERSITY OF WISCONSIN
MADISON 6, WISCONSIN

OFFICE OF THE PRESIDENT

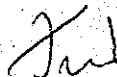

January 24, 1964

Mr. Ward Ross
Managing Director
Wisconsin Alumni Research
Foundation
506 N. Walnut Street
Madison, Wisconsin

Dear Ward:

We have checked out the possibility of any federal grant obligation in connection with the research of Associate Professor Dale Norris of the Department of Entomology. We believe that the discovery set forth under the title "Perspective of New Knowledge on Insecticide-Plastic Formulations for Epidermal or Peridermal Treatment of Plants" is not controlled by any federal requirement. Thus, WARF and Professor Norris are free to pursue patenting, if they wish to do so.

Sincerely yours,

Fred Harvey Harrington
President
