TO: COGR Subcommittee Members

FROM: Howard W. Bremer

You are all aware of the Schmitt bill S. 3627 which was introduced into the last Congress. Senator Schmitt has asked for comments on this bill and I would appreciate receiving any that you might have after reviewing the provisions of the bill in the light of your experience with various Government agencies as it relates to invention and innovation.

I would appreciate it if you could get your comments to me promptly so that I can write in detail to Senator Schmitt regarding the bill and be honestly candid in the comments sent to him.
