Dear Will:

Attached you will find a copy of the omnibus disclosure agreement which PPG has used and about which I spoke to you recently.

I had agreed to chair a SUPA committee concerned with developing a suggested format for agreements between universities and industry so that confidentiality could be maintained on disclosures of inventions or possible inventions. Larry Gilbert has agreed to be part of that committee and his commentary is also attached.

May I also have your comments on the PPG Agreement and your participation on the committee. Perhaps we can have a meeting in conjunction with the SUPA meeting in Atlanta on February 6.

Incidentally, Ed Yates of Johns Hopkins finds nothing wrong with the PPG Agreement.

Best personal regards.

Sincerely,

Howard W. Bremer
