Mr. Joe Allen
Office of Senator Birch Bayh
363 Russell Office Building
Washington, D. C. 20510

Dear Joe:

Pursuant to your request you will find documentation of a delay in subsequent non-use of an invention where the Department of Interior took title. You will note that we had sent this to you earlier but thought it would be best to send all of the materials again so that you would have them at hand.

On this matter I also called the California group because I think Niels Reimers had a very good situation involving a Cat Scanner. Larry Gilbert was going to check with people in his general area to see if there were other circumstances which might be useful. Above all, I think you should call Norm Latker because a lot of the delays encountered were brought to his attention and he will no doubt have accurate memory of them.

We trust that Senator Long can be either accommodated or somehow overridden in his objections. In talking to Eric Shellin after the House hearings on Friday he said he believed Long would not be a particular problem.

Very truly yours,

Howard W. Bremer
Patent Counsel
