Mr. Lawrence Gilbert
Patent Administrator
Boston University
Community Technology Foundation
881 Commonwealth Avenue
Boston, Massachusetts 02215

Dear Larry:

This letter will confirm my request and your agreement to undertake the publication of a quarterly SUPA newsletter. I think it would be good if we would strike for a letter sometime in September which would concentrate on the new legislation and the activities which SUPA has engaged in in moving the legislation along. I think also you should feel free to call upon any SUPA members and particularly the Officers and Trustees for material which might be of interest to the membership for inclusion in the newsletter.

In line with this activity you will find enclosed a mailing which I recently received which may well tie into your activities and perhaps those of Ray Snyder as Chairman of the Education Committee for SUPA. It appears to me that the Technology Assessment & Forecast reports may be of interest to you and also perhaps to Ray since they deal with the role of patents in the development of technology. If you agree I think there would be justification for SUPA to buy the particular reports offered for your and Ray's use. I will by copy of this letter let Mary Spores know of this potential purchase so that if you wanted to go ahead you could bill SUPA through Mary with my approval.

A copy of this letter will go to all of the Officers and Trustees of SUPA so that they are informed of your acceptance of the editorship of the newsletter and to solicit any material from them which they feel might be of interest to the membership for inclusion in the newsletter.

Best personal regards.

Very truly yours,

Howard W. Bremer
President
