Dear Mike:

We appreciate your efforts in obtaining passage of Public Law 98-620 and Public Law 98-622. Although, as we had discussed, Public Law 98-622 did not include some of the elements which were contained in the original draft of legislation from which it matured, we will be pleased to work toward the introduction and passage of additional legislation in the 99th Congress to correct these omissions.

We look forward to working with you and Congressman Kastenmeier to this end.

Best personal regards.

Very truly yours,

Howard W. Bremer  
Patent Counsel
