Dear Milt:

The comments Carl Wootten had on S-1247 which accompanied your memorandum on July 6 raises some specific concerns and in my estimation were well taken. Not only would I like to have a clarification of these items but would like to see specifically addressed in any FOIA revision attempt a recitation of the particular problems facing a researcher looking for funds. In other words, I would like to see exact language spelling out the exemptions for unfunded research protocols, hypotheses and designs.

Very truly yours,

Howard W. Bremer
