Chief, Patent Branch
Office of the Secretary
Department of Health, Education,
and Welfare
Washington, D.C. 20201

Dear Norm:

In response to your communication of March 9, 1973 to all Institutional Patent Agreement Holders we are enclosing a list of the inventions which have been chosen to be administered under the Institutional Patent Agreement.

To date we have adopted a nonexclusive licensing posture with regard to the inventions listed but are currently under some pressure to consider an exclusive arrangement in relation to some of the inventions in order to get the necessary development work done to move the inventions into use for the benefit of the public. We will promptly advise you if we enter into any limited exclusive arrangements to accomplish these ends.

Very truly yours,

Howard W. Bremer
Patent Counsel
