Dear Norm:

As required under the terms of the Institutional Patent Agreement we have been in the practice of sending you a confirming license under the inventions and patent applications which we have filed under the provisions of that agreement. We have then subsequently sent you separate licenses under any corresponding foreign patent applications as a separate document.

In an effort to avoid some paper work we were wondering whether these activities could be combined under one license to the Government as per the enclosed copy. The addition to the proposed agreement would be in numbered paragraph 2.

Will you please let us have your reaction to this proposal bearing in mind that we do inform you of the Serial No. and filing date of any foreign patent applications corresponding to a U. S. application filed as soon as the filing data is available to us.

Best regards.

Very truly yours,

Howard W. Bremer  
Patent Counsel
