

October 12, 1979

Hon. Phil Gramm
House of Representatives
1609 Longworth House Office Building
Washington, D. C. 20515

Dear Mr. Gramm:

At the request of Mr. Rick Rychlik and Mr. Bill Presnal I am sending you with this letter copies of testimony which I presented relative to S. 414, the University and Small Business Patent Procedures Act, and S. 1215, the Science and Technology Research and Development Utilization Policy Act. It is my understanding that you have an interest in science and innovation and particularly in the hearings which will be held October 16 and 17 by the House Committee on Science and Technology. Dr. Ralph Davis from the Purdue Research Foundation will be testifying on behalf of our organization and other university organizations on October 17 before the Committee. I have asked him to send you directly a copy of his statement.

We trust that the enclosed material and Dr. Davis' statement will be of interest and help to you.

Very truly yours,

Howard W. Bremer
President
