Dear Ray:

I realized in talking to Larry Gilbert yesterday that I had not specifically responded to your letter of February 28 regarding the Dvorkovitz meeting which is proposed for Atlanta in 1978 and the suggestion that the SUPA meeting be held on the Monday of the week of the Dvorkovitz meetings so as to permit the University representatives to more closely attend their information centers.

I find no particular problem with that arrangement and have told Larry of my feelings. It appears that the concensus of the SUPA officers and trustees is that the SUPA meeting should be held in conjunction with Dvorkovitz according to the arrangement suggested,

Very truly yours,

Howard W. Bremer
Patent Counsel
