Dear Bob:

In response to your letter of August 12 and as was suggested in our recent telephone conversation we would suggest trying to alter the amendment to the Institutional Patent Agreement with NSF as indicated on the enclosed copy. It seems to us that if NSF is entrusting us to administer inventions in accordance with the provisions of the Institutional Patent Agreement they should also entrust us to administer the inventions under the additional provisions inserted by the suggested amendment without requiring specific approval from them in a particular licensing situation.

Very truly yours,

Howard W. Bremer  
Patent Counsel
