The Honorable Robert W. Kastenmeier
2232 Rayburn Bldg.
Washington, D.C. 20515

Dear Bob:

The passage of Public Law 98-620 and Public Law 98-622 in the last session of Congress should be extremely helpful in promoting innovation by further enhancing the opportunities for university-industry collaboration and in correcting certain inequities existing in the patent law because of judicial decisions. We know that you have had an important part in the passage of these two pieces of legislation and your efforts are appreciated both by the university community and by me personally, as a patent attorney.

I recall that you said to me on one occasion that now that you finally had the attention of Congress in the areas of innovation and patent law that you would continue to generate and promote appropriate legislation in those areas to correct inequities and to foster innovation. We would be pleased to continue working with you and your staff in the 99th Congress to achieve those ends.

Very truly yours,

Howard W. Bremer
Patent Counsel
