TO: SUPA Officers and Trustees

FROM: Howard W. Bremer

Attached you will find a copy of the proposed bill for a uniform Federal patent policy for small business, universities and non-profit organizations for your review and comment. Considerable effort and thought has already gone into the provisions of the bill and it appears that at least one and maybe more sponsors can be found in the Senate for it. Also enclosed you will find a copy of a recent notice in the Patent, Trademark and Copyright Journal relating to the creation of a committee to study industrial innovation. If you have any suggestions for nominations for appointment to this committee please make them directly or let me know and we can make such nominations on behalf of SUPA. In any event, I think we should have a good representation from the university sector on such committee so that our views can be expressed forcefully.

Bill: Sorry you couldn't attend our meeting in Chicago on June 26. I thought it was advisable to go ahead since we did have a majority of the people available on that date.

Along with the other material you will find enclosed a copy of the statement which I made at the Nelson hearings on June 20. The other item enclosed is some commentary by Arthur Whale that was given at the recent APLA meetings and is timely.
