Mr. W. O. Burke
Office of the Vice President for Research
University of Georgia
Athens, Georgia 30602

Dear Mr. Burke:

I am sending you the enclosed letter in fulfillment of your request of April 28 for this type of information. We do not currently have an institutional patent agreement with NSF or NIH. We have preferred to wait until our program grows so we can demonstrate competence in handling new inventions before we apply for such an agreement.

If you need more detail than is contained in the enclosed, I would be glad to provide.

Yours sincerely,

J. Ralph Shay
Assistant Dean of Research
