RE: Congressional Oversight
Hearings For Stevenson-Wydler
Act

Dear Mr. Bremer:

As per our telephone conversation of April 23, I am enclosing various documents relating to oversight hearings to be held in the near future in the House of Representatives concerning the Stevenson-Wydler Act. I have received these documents from Phil Hamilton who serves as Congressional Liaison for ASME. It is quite apparent from our conversation that you are quite familiar with this legislation and that your comments would be very helpful. Please refer to the letter from the Committee on Science and Technology of the U.S. House Of Representatives dated March 1, 1985 and provide Phil Hamilton with any comments you may have concerning the questions listed in that letter. Also note that written responses can be sent to Carol Pompliano as mentioned at the end of the letter of March 1, 1985. Should you so desire, I am sure that Phil Hamilton would be happy to arrange for your testifying before the Committee on Science and Technology of the U.S. House of Representatives and it is apparent that such will occur in May or June. I realize that you have a forthcoming lengthy trip to Europe but I trust that sufficient time will remain for receipt of your written comments in this matter.
