WISCONSIN ALUMNI RESEARCH FOUNDATION

March 19, 1982

The Honorable Robert W. Kastenmeier
United States House of Representatives
Washington, D. C. 20515

Dear Representative Kastenmeier:

Last June I wrote to you concerning H. R. 1937, the Patent Restoration Act. This is just a note to underscore our continued support for this legislation and its importance to the Wisconsin Alumni Research Foundation and the University of Wisconsin. As you know, the process of invention requires great financial commitment. In the current climate, when sources of research funds are diminishing, the discretionary money obtained from patent revenues to aid continuing university research becomes more and more important. Therefore, we hope that this constructive legislation will be enacted shortly. Your leadership in this matter is very much appreciated.

Sincerely,

WISCONSIN ALUMNI RESEARCH FOUNDATION

John R. Pike, Ph. D.
Managing Director
