Mr. George P. Lewett
Chief,
Office of Energy-Related Inventions
U.S. Department of Commerce
National Bureau of Standards
Washington, D.C. 20234

Dear Mr. Lewett:

It was a pleasure to meet you and learn about your program at the recent Innovation Center Conference at M.I.T.

I have discussed the program with the President of the Society of University Patent Administrators (SUPA), and we would like to describe the program in the next SUPA newsletter which is mailed to about 100 universities. Toward that end, I would greatly appreciate it if you would mail some descriptive material to me and to Howard Bremer, the current President of SUPA.

Sincerely,

Lawrence Gilbert,
Patent Administrator
