Dear Mr. Pike:

Thank you for your telegram concerning the McKinney-Fuqua amendment to H.R. 12112.

H.R. 12112 was brought to the House floor today, however the rule to consider it was rejected. There will be no further action on the bill during this session of Congress, but I hope that a better synthetic fuels bill will come up early next session.

Again, thank you for contacting me. Please do not hesitate to inform me of further matters of concern.

Sincerely,

Les Aspin
Member of Congress
