Professor C. H. Amundson  
Assistant Chairman  
Department of Dairy and  
Food Industries  
University of Wisconsin  
College of Agriculture  
Babcock Hall  
Madison, Wisconsin 53706

Dear Clyde:

This is a late acknowledgment of your letter of February 10 with which you enclosed the materials and letter which you had received from Professor Price. We appreciate the fact that both you and he are thinking about our problems.

I still hope to get together with you in the near future to discuss spray drying and I believe Jim would like another report on the lactase enzyme production method. We will call you.

Very truly yours,

M. D. Woerpel  
Director of Development
