Re: Lichtenstein-Casida

Dear Bill:

The filing deadline for a U. S. Patent Application on the above case will be September 19, 1964. The attached copy of a letter from the Editor of the Journal of Agricultural and Food Chemistry has established this as the date which, for patent purposes, must be considered as the date of publication of their work.

In Ward's phone call to you yesterday, he authorized you to request permission from HEW to permit WARF's filing on this invention with the understanding that, if the determination is ultimately made that the invention should be assigned to the Government, WARF will comply.

Best regards.

Very truly yours,

M. D. Woerpel
Director of Development
