Dear Don:

Enclosed is a copy of the letter received from Dr. Martin Rachmeler of Northwestern University and which I mentioned to you by phone today. I thought you would be pleased to know that the University is taking some action to spread the good word on the patent system.

I also addressed the patent committee at the University of Missouri and we are making plans there to prepare a short video tape on the fundamentals of patents. Perhaps this might grow into a series of tapes that can be distributed to other academic communities.

We are planning a meeting of the officers and trustees of SUPA sometime in the near future, and we hope to expand on this project. Howard Bremmer has asked me to serve as chairman of the educational committee for SUPA and any comments or suggestions you can offer along this line will be greatly appreciated.

Very truly yours,

Ray E. Snyder
