Dear Don:

Confirming our recent phone conversation, I enclose herewith a roster of the SUPA membership which may be helpful in your search for new products. Also enclosed is an abstract from Northwestern University entitled "Process for Preparing Poly-acrylonitrile Doped with Prussian Blue". We have been advised that the patent on this invention has been issued or will be shortly. Also enclosed is a brochure from the University of Missouri listing the inventions available for technology transfer.

Confirming my invitation, please feel free to drop in whenever you are in Chicago.

Very truly yours,

Ray E. Snyder
