Madison, Wisconsin 53705

Dear Howard:

I have Mary Spores' letter of September 15 regarding possible membership in IMRG. I am inclined to agree with your appraisal that the interests of the numerous groups are too diverse to make it worth your while. I dropped out of NCURA and SRA for the same reason.

The only reservation I have has to do with whatever political clout these other groups might bring to bear on our behalf. They might be of some help to us, but personally I feel we should row our own boat. This is the only way we can maintain control over where we're going.

Very truly yours,

Ray E. Snyder
