Dear Les:

Thank you for your kind letter of December 11.
Apparently our letters crossed in the mails.

I appreciated the opportunity to address your
group, and have already contacted some members individually.
With the cooperation of the SUPA organization I hope that
we can find an effective means to implement the spirit and
intent of the Dole-Bayh Bill.

For my own records, will you please provide me with
a list of the members that attended the meeting in Chicago.

Very truly yours,

Ray E. Snyder
