Northwestern University  
Rebecca Crown Center  
Evanston, Illinois 60201

Dear Marty:

Enclosed are copies of our correspondence with Don Banner and Howard Bremmer. I believe their contents are self-explanatory. I sincerely believe that there is much more that the universities can do to sell the patent system to our future scientists and engineers.

If you need further assistance in this matter, I am at your service.

Very truly yours,

*Ray E. Snyder*
