

May 8, 1978

Mr. Paul R. Keenan
Asst. of the Vice-President
Office of Research
University of Missouri
418 Clark Hall
Columbia, Missouri 65201

Dear Paul:

Enclosed are copies of some correspondence I have had with Don Banner and Howard Bremmer. I believe their contents are self-explanatory.

Don Banner makes a good point, and I believe the Patent Office would be glad to assist in any type of program or seminar the University might wish to set up. There is much that can be done at the grass roots level to inspire our future inventors.

I shall be pleased to elaborate on this topic at the Patent Committee meeting on the 16th.

Very truly yours,

Ray E. Snyder
