Subject: Bill concerning institutional patent agreements

Dear Birch:

Our paths have crossed only occasionally since law school at Indiana University, but it looks like they may cross again. It is my understanding that you are joining with Senator Dole in sponsoring legislation favoring institutional patent agreements. As a Vice-President of the Licensing Executives Society and as Patent Counsel for Eltra Corporation, I am very much interested in institutional patent agreements, and so if there is anything which I can do to be of help in regard to this legislation, please contact me.

I would very much appreciate your forwarding to me five copies of the bill for distribution to contacts which I have that would be interested in the subject bill.

Very truly yours,

Robert H. Johnson
