Dear Peter:

Re: NIH

Since on a couple of past occasions I had discussed at some length our NIH problems with both Blake Yates of Research Corporation and Bob Underhill of the University of California, earlier this month I took the liberty of writing these two gentlemen advising them of the status of relations involving NIH, the University of Wisconsin, and WARF. Copies of my letters respectively to Bob Underhill of October 10 and to Blake Yates of October 11 are enclosed for your information.

I have now had replies from both of these gentlemen, and to keep you posted I am enclosing copies of Blake Yates' reply of October 13 and of Bob Underhill's reply of October 17, 1961. The latter communication is of particular interest and I am sure will be helpful to you, as well as us, in further consideration of these matters.

Very truly yours,

Ward Ross,
Managing Director
