Dear Dick:

With further reference to my letter of August 23, I am now enclosing copies of correspondence of July-August 1951 between the University and the Public Health Service with reference to the handling of inventions. So far as I know, there has been no further communication received by the University from Miss Parent or others since Miss Parent's letter to the late President Elvehjem of August 30, 1961.

Best personal regards,

Ward Ross,
Managing Director
