Mr. Ed Rosten, Executive Director
WARF, 13th Floor

Dear Ed:

Enclosed please find a communication from Norman Latker. I see no reason for not complying with the request to list patents obtained under the Institutional Agreement. If you and your staff concur, will you take care of supplying list, if not please advise me.

With regard to Latker's speech, please note that both NSF and NASA are moving toward the Institutional Agreement system. Perhaps Marv or Howie would advise on next steps to achieve agreements with these agencies.

Sincerely,

William H. Young, Chairman

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

OFFICE OF THE SECRETARY

WASHINGTON, D.C. 20201

OFFICE OF THE
GENERAL COUNSEL

March 9, 1973

TO: All Institutional Patent Agreement Holders

The Department of Health, Education, and Welfare is now compiling a listing for use by prospective licensees of all patented inventions generated with its support, whether title resides in the Department or not. If you wish to have those inventions that you have chosen to administer under your Institutional Patent Agreement added to such listing, please provide us, within 45 days, with the name of such invention, the number of the United States patent or patent application and the name(s) of the inventor(s). A listing of foreign patents and patent applications is not contemplated at this time.

The DHEW listing will direct interested parties back to the institution's patent focal point for purposes of negotiating licenses or obtaining additional technical information. Any special information which you wish in the DHEW listing should be provided with your list. Please note the Institution's current patent focal point, with his or her name, title, address, and telephone number.

After we have compiled the initial listing, we will keep it updated for institutions indicating an interest through your individual invention reports.

Sincerely yours,

Norman J. Latker
Chief, Patent Branch
