Dear Mr. Kassander,

Thank you very much for your letter expressing your support for H.R. 6249, a bill to establish a uniform patent policy for inventions resulting from federally funded research and development.

As you know, this bill is pending before the House Subcommittee on Science, Research and Technology, and no action is anticipated until later in the year.

When this bill does come before the Committee, I shall certainly keep your views in mind.

Again, thank you for taking the time to share your comments with me. I hope you will continue to do so whenever there is an issue of concern to you.

Sincerely,

  
Eldon Rudd  
Member of Congress
