Dr. Seymour Perry  
Assistant Secretary  
National Institute of Health  
Building One, Room 111  
Bethesda, Maryland 20014

PATENT BRANCH, OGC  
DHEW

JAN 31 1977

Dear Dr. Perry:

In accordance with our telephone conversation on Friday, January 14th, I am enclosing two draft proposals which deal with the commercial transfer of University-developed health-related technologies. Your inputs, as to what ideas appear to be practical, in light of the NIH's present overall objectives would be most welcome at this stage of our proposal's development.

After you have had a chance to review the draft, perhaps I, along with the proposal's three principal investigators could meet with you and Norm Latker. We can discuss further our project's programs and their objectives while addressing any questions you may have about the proposal. According to my present plans, I will be in Washington on February 1st, 2nd and 3rd. If one of these days would be convenient for our meeting, please contact me so that I can make the proper arrangements. If none of these days are convenient, perhaps you could suggest some alternatives.

I would like to thank you for taking the time to review the proposal, and will be looking forward to hearing from you.

Sincerely yours,

GEORGE M. STADLER  
Assistant to the President
