Dr. Olaf P. Bergelin Coordinator of Research College of Graduate Studies University of Delaware 234 Hullihen Hall Newark, Delaware 19711

Deaf Olaf:

I very much appreciate receiving a copy of your proposed plan for direct agency support for technology transfer. I had not seen it before.

الأريان مناطق والمعاد والمحاج الك

As you know, I am in favor of implementing a plan such as yours. The Director at NIH has recently become interested in technology transfer, and I have made your plan available to his office with my endorsement (for whatever it is worth).

We are making progress in the area, and if people like yourself press the theme of "a line item for technology transfer", we could do better.

Thanks again.

Sincerely yours,

Norman J. Latker Patent Counsel

bcc: Dr. Seymour Perry DHEW/OS/GCB NJLatker/ack 3-5-76
