June 9, 1978

Mr. Steven Atkinson Committee on Patents & Copyrights, Harvard Holyoke Center 938 1305 Massachusetts Ave., N. W. Cambridge, Mass. 02138

## Dear Steve:

The attached memorandum was recently sent out to SUPA members. It seems to me the Monsanto-Harvard agreement publicized recently might be cited as an example where private funding was possible in light of the existence of Harvard's Institutional Patent Agreement, even though inventions had not yet been identified. (Dr. Folkman is a recipient of NIH grants.) If you think this could be cited as an example, would you advise Bill Burke in a short narrative?

Thank you.

Sincerely,

Norman J. Latker Patent Counsel

**Enclosure** 

cc: Bill Burke

HEW/OS/GCB NJLatker/ack 6-9-78
