Mr. Bernard H. Martin
Assistant Director for
Legislative Reference
Executive Office of the President
Washington, D. C. 20503

Dear Mr. Martin:

This letter responds to your request that we review the present draft of the "Federal Intellectual Property Policy Act of 1976." The effect of this act would be to standardize the policy of the government in dealing with intellectual property including patents. The bill would affect employees of this Commission as well as employees of private contractors working for the Commission.

Representatives of the Commission have participated in the drafting of the bill and commented on it during its development. The Commission has no objection to the bill in its present form.

Sincerely,

A handwritten signature in cursive script, appearing to read "Peter L. Strauss".

Peter L. Strauss
General Counsel
