Minority Memorandum

June 11, 1941

Remitter: Fuller Uniform Co. (No. 11729)

Titles: "Fuller Fine Washable Uniforms" and "Fuller's Finest Uniforms"

Question: Whether to apply available fee to work now in order for registration--"Fuller's Finest Uniforms"

It has been suggested by the Correspondence Section that the \$2.00 fee filed by this remitter February 11, 1940, for the recording of their 1940 Catalog, published with notice of copyright in their name, be applied to the registration of the 1941 Catalog, received December, 1940. The undersigned is opposed to this suggestion, because it is not her understanding that the Correspondence Section or the Revisory Board has any authority over the disposition of the copyright fees. It is furthermore apparent from remitter's last communication, received April 22, 1941, that he wishes to complete the registration of the 1940 Catalog, for which the fee was sent. The only deterrent to the recording of this claim is an inadequate title in the application. As this unfinished business has been before the Office since February 21, 1940, the undersigned is in favor of completing the record of the claim in the 1940 Catalog, using the title on the title-page of the deposit. The fee for the recording of the 1941 Catalog should then be requested.
